

*International Civil Aviation Organization*

**Thirteenth Meeting of the APANPIRG ATS/AIS/SAR Sub-Group  
(ATS/AIS/SAR/SG/13)**

Bangkok, Thailand, 23 – 27 June 2003

---

**Agenda Item 3: Review and progress the tasks assigned to the ATS/AIS/SAR/SG by  
APANPIRG**

**REVIEW OF OUTSTANDING CONCLUSIONS AND DECISIONS OF APANPIRG**

(Presented by the Secretariat)

**SUMMARY**

This paper outlines the outstanding conclusions and decisions of APANPIRG in the ATS/AIS/SAR fields which are relevant to the work of the ATS/AIS/SAR Sub-Group.

**1. INTRODUCTION**

1.1 APANPIRG/13 under its Agenda Item 5 reviewed the progress made on the outstanding conclusions and decisions of previous APANPIRG meetings including those of APANPIRG/12. The meeting decided on a consolidated list of outstanding conclusions and decisions on which further action would be required.

**2. DISCUSSION**

2.1 The list of Outstanding Conclusions and Decisions of APANPIRG in the ATS/AIS/SAR field is appended.

**3. ACTION BY THE MEETING**

3.1 The meeting is invited to review and update the list of APANPIRG outstanding conclusions and decisions shown in the Appendix to this paper for APANPIRG consideration.

-----

LIST OF OUTSTANDING CONCLUSIONS/DECISIONS IN ATS/AIS/SAR FIELDS

PART A – List as published under Agenda Item 5 to APANPIRG/13

| Report Reference<br>-----<br>Conc/Dec No | Action by<br>ANC/<br>Council | Decision/Conclusion Title/<br>ANC/Council Action, if any                                                                                                                                                                                                                                                                                                                                                                                                                                  | Action by States/ICAO                                                                                                                                                                                                                                          | Status                                                             | Recommended Action by<br>ATS/AIS/SAR/SG/13                                                |
|------------------------------------------|------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------|-------------------------------------------------------------------------------------------|
| C 2/28                                   |                              | <b>Implementation of Area Control Service</b><br><br>That in view of recent improvements in the point-to-point communications and imminent improvement in HF air-ground communication, States concerned be urged to take urgent action to upgrade advisory and flight information services to area control service in the area over the Bay of Bengal by early 1993 along major ATS routes in their respective FIRs to enhance the safety of the rapidly increasing air traffic movement. | Area Control Services is now provided over the most of the Bay of Bengal area except for the southern portion where point-to-point communications are not reliable.                                                                                            | On-going                                                           | Update to be requested from States                                                        |
| C 3/24                                   |                              | <b>Implementation of RVSM &amp; RNP in the Pacific Region</b><br><br>That, Australia, New Zealand and United States requested to prepare proposals for the implementation of RVSM and RNP in the Pacific Region based on the work done by the ISPACG.                                                                                                                                                                                                                                     | a) RNP-10 has been implemented in most of the Pacific Region. Central Pacific in October 2002.<br><br>b) RNP4 implementation being considered.<br><br>Note: RVSM was implemented in the Pacific Region on 24 February 2000. This action on RVSM was completed. | <del>On-going</del><br>Closed<br><br><del>On-going</del><br>Closed | Recommend closure                                                                         |
| C 4/2                                    | C                            | <b>States in the Asia Region to review their SAR system</b><br>That,<br><br>a) States in the Asia Region review their SAR system in the context of the matters which require urgent addressing in the PAC Region and detailed in Appendix B, and advise the ICAO Regional Office.<br><br>Noted the Conclusion.                                                                                                                                                                            | a) Review of Asian States SAR is continuing. The ICAO Regional Office is actively fostering the enhancement of SAR throughout the Region as part of the normal work programme. Deficiencies will be listed as they become apparent.                            | On-going                                                           | 1. APDX B to be re-presented to ATS/AIS/SAR/SG13<br>2. Update to be requested from States |

| C 11/12                                        |                                 | <p><b>Principles to be Used in the Development of the Route Network</b></p> <p>That, the following Principles will be used in developing this route structure:</p> <ol style="list-style-type: none"> <li>1. that, using the advantages of CNS/ATM implementation, a revised ATS trunk route structure between Southeast Asia and Europe/Middle East will be developed. The planning of these routes structures should take advantage of existing and on-going CNS/ATM technologies in order to provide safe and efficient air traffic management with the least impact to environmental concerns;</li> <li>2. that, these ATS trunk routes be developed primarily for international long-haul and medium-haul flights, however they may also be used where necessary for other regional and domestic operations;</li> <li>3. that, as much as possible, planning of ATS trunk routes will be on the basis that each route is laterally separated from each other;</li> <li>4. that, the development of these route structures will be fully co-ordinated amongst the involved Asia/Pacific ATS Providers and airlines. Also, due to the length of these trunk routes, harmonisation is required with both MID and EUR Regions; and</li> <li>5. that co-operation is required between all concerned states and the aviation industry to ensure an efficient flow of international aircraft operations between Asia, Europe and the Middle East.</li> </ol> | All 5 Principles are being considered in the development and implementation of the revised ATS route structure. | Completed | Recommend closure                          |

| C 12/8 | C   | <p><b>Special implementation project for an AIS seminar in 2002</b></p> <p>That, ICAO urgently consider a proposal for an Asia/Pacific Special Implementation Project to be established in order to hold an AIS Seminar in 2002 with the primary objective to improve AIS in relation to AIS automation and quality assurance programme.</p> <p>Noted the conclusion and that such a project would be put forward for the Council's approval through established procedures.</p>                                       | ATS/AIS/SAR/SG AIS Automation Task Force developed a detailed programme of the Seminar. The AIS Seminar is planned in Bangkok in mid-December 2002.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | On-going<br>Completed | <p>1. AIS Seminar completed in 2002</p> <p>2. Recommend closure</p>                                                                                   |
| D 12/9 | ANC | <p><b>Development of lateral offset procedures for application in the Asia/Pacific Region</b></p> <p>That, as a matter of urgency, the ATS/AIS/SAR/SG develop lateral offset procedures for application in the Asia/Pacific Region, and in co-ordination with other regional planning groups and bodies concerned, develop global offset procedures.</p> <p>Noted the conclusion and that the development of lateral offset procedures for regional implementation should be in accordance with global guidelines.</p> | <p>ATS/AIS/SAR SG/12 meeting reviewed progress to develop regional and global lateral offset procedures. The meeting noted that APANPIRG/12, D12/9 had been overtaken by events and ICAO had revised the global guidelines and issued a State letter. Work is ongoing by SASP to develop further guidelines and global procedures are being progressed by ICAO HQ. At the regional level, ISPACG is considering implementing of 1 NM lateral offsets in the South Pacific Region in September 2002 and the results of this activity should be analysed before proceeding with a regional implementation programme. The meeting recommended that APANPIRG/13 D 12/9 is no longer relevant.</p> <p>Consideration should be given to conduct a study of States' requirements to implement lateral offsets and based on this</p> | On-going              | <p>SUPP Amendment for 1NM lateral offset procedures for South Pacific region being progressed</p> <p>C 13/4 and C 13/5 also refers</p> <p>Ongoing</p> |

| C 12/10 | C | <p><b>Special implementation project – International seminar and SAREX</b></p> <p>That, ICAO urgently consider a proposal for an Asia/Pacific Special Implementation Project to be established with the primary objective to improve search and rescue services, co-ordination and cooperation between States.</p> <p>Noted the conclusion and that such a project would be put forward for the Council's approval through established procedures.</p>                                                                                                                                                                                                                                                                                                                                        | <p>Due to other priorities in the ATM field, it was decided to defer the Special Implementation Project on the International Seminar and SAREX to 2002. States will be approached regarding the hosting of this SAREX/Seminar. When this decision has been finalized, other States of the Bay of Bengal area will be invited to contribute to the conduct and organizational aspects of making this event a success.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                           | On-going  | <p>Seminar postponed until 2004</p> <p>Ongoing</p>                                                                             |
| D 12/11 |   | <p><b>ATS/AIS/SAR Subject/Task List</b></p> <p>That, the ATS/AIS/SAR Subject/Task List as contained in Appendix I to the Report on Agenda Item 2.1 be adopted as the current work assignment for the ATS/AIS/SAR Sub-Group replacing the current Subject/Task List as assigned by APANPIRG/11.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | <p>ATS/AIS/SAR/SG/12 meeting reviewed and updated the Subject/Task List. This updated List is at Appendix A to the Report on Agenda Item 7. The meeting formulated the Draft Decision 12/9.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | Completed | <p>ATS/AIS/SAR Subject/Task List replaced by current Subject/Task List as assigned by APANPIRG/13</p> <p>Recommend closure</p> |
| C 12/38 |   | <p><b>Revision and Publication of Guidance Material on CNS/ATM Operations in the Asia/Pacific Region</b></p> <p>That,</p> <p>a) the <i>Guidance Material on CNS/ATM Operations in the Asia/Pacific Region</i>, Chapter 4, paragraph 6 on the application of separation using ADS be revised in line with the views of the Air Navigation Commission (157-2) on reviewing the report of APANPIRG/11 as follows:</p> <p><b>6. Application of procedural horizontal separation using ADS</b></p> <p>Aircraft position information obtained by ADS may be used for the application of procedural horizontal separation minima contained in the PANS-RAC (Doc 4444), Part III. Area Control Service where aircraft position reports are necessary to apply the appropriate separation minimum.</p> | <p>Events have overtaken this Conclusion. The ANC (159-7) on agreeing to Amendment 1 to PANS-ATM (applicability date 28 November 2002), also agreed that the Asia/Pacific Guidance Material should be reviewed to ensure it was in accordance with the procedures contained in PANS-ATM. Accordingly, a comprehensive technical review was carried out by ANB and revealed significant differences with PANS-ATM, therefore it will be necessary to revise the Guidance Material. Also, the HQ review noted that informal ATS coordinating groups also publish similar guidance material and there is a need to consider whether a proliferation of such documents is necessary, particular in terms of promoting uniform application of ATS data link applications and supporting transparency between ICAO regions.</p> <p>A working paper is being presented to APANPIRG/13</p> | On-going  | <p>This task has been placed on the work program of the ATS/AIS/SAR/SG</p> <p>Ongoing</p>                                      |

|         |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                                            |           |                                                                                       |
