

International Civil Aviation Organization and the Directorate General of Air Communication, Indonesia

**SIXTH MEETING OF AERONAUTICAL TELECOMMUNICATION NETWORK (ATN) TRANSITION TASK FORCE OF APANPIRG**

Bali, Indonesia, 26-30 April 2004

**Agenda Item 3: Discussions and Review AMHS Activities**  
**- AMHS Naming Registration Form**

**PROPOSED FINAL DRAFT OF  
ASIA/PACIFIC REGIONAL  
ATN AMHS NAMING REGISTRATION**

(Prepared by: Ad Hoc Group on Naming and Addressing)

(Presented by: Chairman)

**SUMMARY**

This paper is presented as a proposed draft of the form for registering AMHS Names within the Region.

**INTRODUCTION**

The attached forms are drafts for the registration of AMHS Names within the Region. These forms will form the basis for documenting States' AMHS naming conventions and selected AMHS names for ATN communications within the Asia/Pacific Region.

**RECOMMENDATION**

The ATN Task Force members are requested to review the attached tables as a basis for documenting AMHS names within the Region.

-----

| ID  | AMHS Domain                         | MTA Name | AMHS User Name | CAAS or XF | Description of User Name | Point of Contact | Location |
|-----|-------------------------------------|----------|----------------|------------|--------------------------|------------------|----------|
| 1   | C=XX, ADMD=ICAO,<br>PRMD=K, O=AFTN, | kslcmta  |                | XF         |                          | Hoang Tran       | USA      |
| 1.1 |                                     |          | KSLCATNX       |            | AMHS Operator            |                  |          |
| 1.2 |                                     |          |                |            |                          |                  |          |
| 1.3 |                                     |          |                |            |                          |                  |          |
| 1.4 |                                     |          |                |            |                          |                  |          |
| 1.5 |                                     |          |                |            |                          |                  |          |
| 1.6 |                                     |          |                |            |                          |                  |          |
| 1.7 |                                     |          |                |            |                          |                  |          |
| 1.8 |                                     |          |                |            |                          |                  |          |

**Table 1 – Documentation of AMHS MTA and End-User Names**

**Legend:**

ID – Numbering scheme where each naming domain is assigned an ordinal number with each user on the MTA a sub-ordinate number.

AMHS Domain – The ATN AMHS name prefix (management domain) as defined in ICAO Doc. 9705. There are two formats of the AMHS name prefix, XF and CAAS.

MTA Name – The name of the MTA hosting the AMHS user.

AMHS User Name – The 8-character user name.

Domain Type – The format of the AMHS name used. Values are limited to XF or CAAS.

Description

Point of Contact – The person or office to contact about further information about this entry.

Location – The physical location of the system. This may be either an address or an AFTN location identifier.

| MTA ID | MTA Name | Element ID | NSAP                                     | Capabilities  | Point of Contact |
|--------|----------|------------|------------------------------------------|---------------|------------------|
| 1      | kslcmta  | 1          | 4700278155534100010101010100000202020301 | Basic service | Hoang Tran       |
| 2      |          |            |                                          |               |                  |
| 3      |          |            |                                          |               |                  |
| 4      |          |            |                                          |               |                  |
| 5      |          |            |                                          |               |                  |
| 6      |          |            |                                          |               |                  |
| 7      |          |            |                                          |               |                  |

**Table 2 – Documentation of AMHS MTA**

Legend:

MTA ID – Numbering scheme where each entry is assigned an ordinal number.

MTA Name – This field is used to provide the MTA name used in AMHS BINDs.

Element ID – This field is the linkage between Table 1 and Table 2 and is the ID field from Table 1.

NSAP – This field is used to indicate the NSAP assigned to the MTA.

Point of Contact – The person or office to contact about further information about this entry.
