

Agenda Item 4: Specific Air Navigation Activities and Developments
4.1 Aeronautical Information Services (AIS)

STATUS OF IMPLEMENTATION OF THE E/CAR AIS/ MAP SYSTEMS

(Presented by the Secretariat)

SUMMARY

The Secretariat suggests a form to be filled by the E/CAR States/Territories on the status of implementation of the AIS/MAP systems.

1. Introduction

1.1 The Secretariat has developed the form contained in the **Appendix** to this working paper "STATUS OF IMPLEMENTATION OF THE E/CAR AIS/ MAP SYSTEMS" so that E/CAR States/Territories may reflect the fulfillment of each one of the main tasks and explain the difficulties encountered during the fulfillment of each one of them. This will help to focus the problem and to take immediate actions allowing that each State/Territory succeeds in implementing the systems indicated in the form as soon as possible.

2. Discussion

2.1 The Meeting is requested to gather and present information regarding the aforementioned form and to agree on the following:

DRAFT

CONCLUSION 30/X STATUS OF IMPLEMENTATION OF THE E/CAR AIS/ MAP SYSTEMS

That in order to reflect the fulfillment of the AIS/MAP systems in the E/CAR, States/Territories present information in the format contained in Appendix X to this part of the Report (*appendix to this Working Paper refers*) to the NACC Regional Office periodically (in a quarterly basis).

3. Suggested Action

3.1 The Meeting is requested to:

- a) analyze the information contained in this paper; and
- b) adopt the Draft Conclusion suggested in para 2.1

APPENDIX
STATUS OF IMPLEMENTATION OF THE E/CAR AIS/ MAP SYSTEMS

STATE/TERRITORY:

No	Tasks	Start date	In process	Finalized	Difficulties encountered during the execution of the tasks
	1	2	3	4	5
1	Harmonization with the WGS 84 bordering points coordinates.				
2	Total Implementation of WGS 84.				
3	Implementation of a quality management system.				
4	Implementation of the AIS Automation plan.				
5	Updating of the deficiencies tables.
