

GLOBAL AIR TRAFFIC MANAGEMENT FORUM ON CIVIL/MILITARY COOPERATION

ICAO Headquarters, Montréal, Canada
19 to 21 October 2009

Ms.

Nancy Kalinowski

**Vice President, System Operations Services
Federal Aviation Administration (FAA)/United States**

Ms. Nancy Kalinowski is the Vice President of System Operations Services for the Air Traffic Organization (ATO). She is responsible for overall national guidance for the air traffic flow management, airspace management and aeronautical information management, as well as the delivery of safe, secure, and efficient air traffic management and flight services for the National Airspace System (NAS). Ms. Kalinowski directs the daily ATO interface with the Department of Defense (DoD), the national and individual military command levels, and the Department of Homeland Security for all air transportation security issues. During her more than 30-year career with the FAA, she has served in management and executive positions in human resource management, budget, communications, flight services, airspace management

and design, aeronautical information management, and aviation safety. Notably, she has been at the forefront of the redesign of airspace above the New York, New Jersey, and Philadelphia metropolitan areas — the busiest and most complex airspace in the nation.

Ms. Kalinowski has received numerous awards during her career, including the prestigious Secretary of Transportation's Gold Medal Award for outstanding achievement and leadership to address delays and aviation congestion in the New York area.

Ms. Kalinowski earned a Bachelor's in Psychology from Eckerd College, St. Petersburg, Florida, and holds a Master's in Industrial Psychology from University of Central Florida.
