WELCOME TO WAGMAR

Notice : Migration of Agreements and Arrangements from ICAO's Database of Aeronautical Agreements and Arrangements (DAGMAR) is partially complete. Some Agreements and Arrangements may therefore not be accessible on WAGMAR at this time. While the situation is being resolved, please note that you may access preexisting registrations on DAGMAR at the following address: https://cfapp.icao.int/dagmar/main.cfm?UserLang=_e.

Pursuant to the Convention on International Civil Aviation States are required to register international aeronautical agreements and arrangements with ICAO. WAGMAR permits States to register such agreements and arrangements on-line.

It is also available to States, operators and the public to search for information concerning registered agreements and arrangements. If you would like to find out more about WAGMAR, please click on the Video tutorial button below for further information.

Welcome to the Website for Aeronautical Agreements and Arrangements (WAGMAR) Tutorial Series.

Building on the existing DAGMAR system, WAGMAR streamlines the agreement application processes and offers users a simple and intuitive interface to initiate/manage new agreement applications, generate agreement summaries as well as search and retrieve information.

In this series, we will be walking you through the various functionalities of WAGMAR.
