# THE 2ND ICAO WORLD AVIATION FORUM

AVIATION PARTNERSHIPS FOR SUSTAINABLE DEVELOPMENT

MONTRÉAL, CANADA | 26 SEPTEMBER 2016

Round Table  
Partnerships to Bridge Infrastructure Gap

## How to facilitate private/public financing and access to funding?

- Pool expertise through multilateral cooperation because infrastructure development is a shared challenge; Government role in planning and coordination. *(AAPA)*
- Work together towards a common goal — a fully-liberalized industry with light touch regulation so that aviation are allowed to operate like any other business. *(ACI)*
- View aircraft as infrastructure to facilitate its modernization; Fully liberalize African skies to facilitate cross-investments and consolidation of industry. *(AFRAA)*
- Separate regulation from service provision, and allow ANSPs to operate as normal businesses within performance-driven framework. *(CANSO)*
- Partnerships with industry to build solid business cases for long-term funding, and to align on business needs and acceptable costs. *(IATA)*
- View infrastructure planning holistically, take into account unique needs of all users in localities around the world. *(IBAC)*
