2. Global Leadership – Build a future ready PKD community → Focus area: Build capabilities
3. Global Leadership - Grow participation amongst all who can benefit from the PKD → Focus area: Inform and engage stakeholders
4. Effective Management – Ensure proper use of the PKD by all participants in a complete and timely manner → Focus area: Ensure compliance and governance

New PKD System

Foundations for the
future

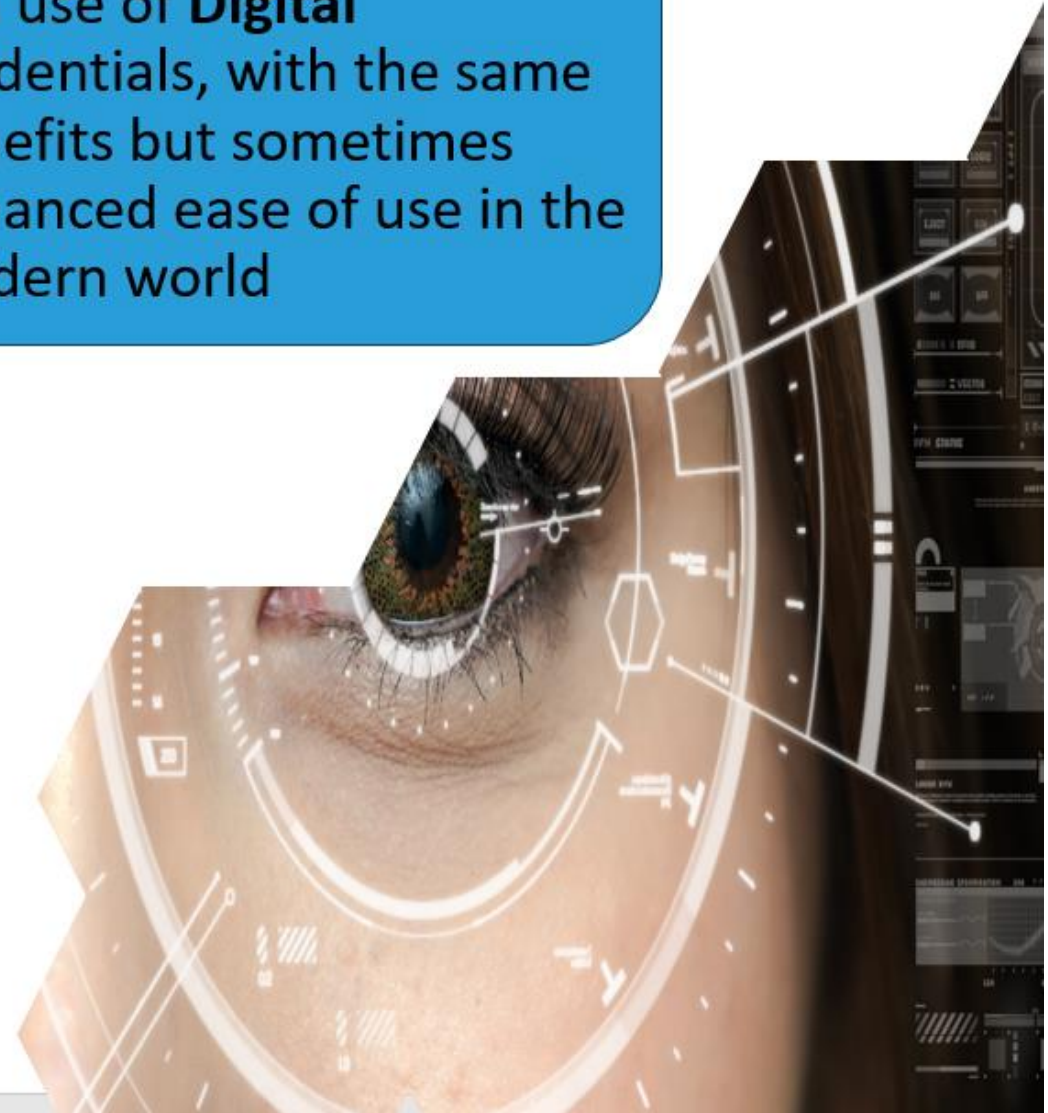

Public Key Infrastructure

A strategic asset for States

Fast and Easy Issuance and Verification of **Physical** Credentials

- ➔ Immigration
- ➔ Customs and goods
- ➔ Legal verifications
- ➔ Reduction of fraud
- ➔ Identity security

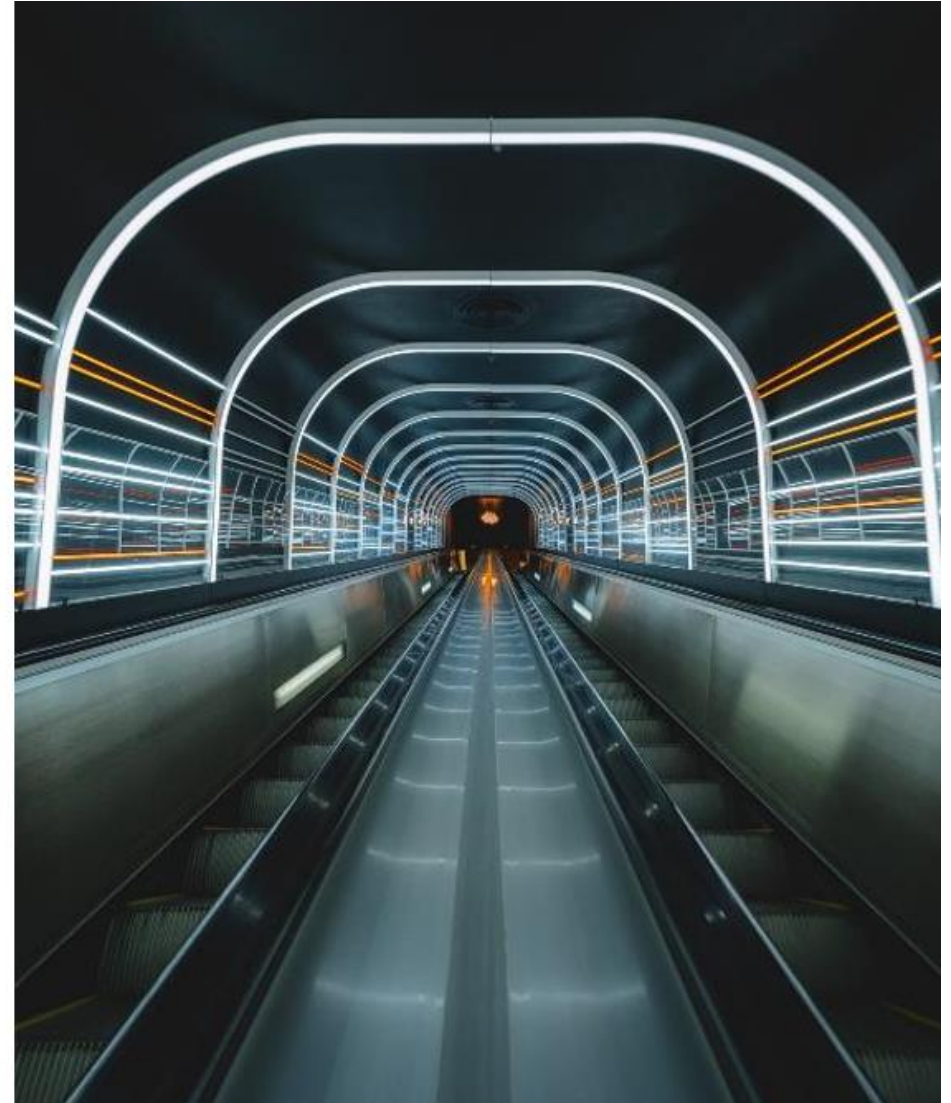

Transferability to issuance and use of **Digital** Credentials, with the same benefits but sometimes enhanced ease of use in the modern world

The Case for Private Sector Access to the ICAO PKD

A boon for all, if done correctly

- Supports initiatives to use identities to access services in travel and beyond, including for vulnerable people
- Improved end-to-end process flows
- Improved use of the ICAO Digital Travel Credential, barcodes and other formats
- Better global capabilities to verify travel documents
- ICAO at the heart of future global innovation in travel

Thank You
