

[CUBA] ASBU Air Navigation Reporting Form (ANRF)				
PIA	3	Block - Module	B0 - SNET	Date July 31, 2019
<b>Module Description:</b> To enable monitoring of flights while airborne to provide timely alerts to air traffic controllers of potential risks to flight safety. Alerts from short-term conflict alert (STCA), area proximity warnings (APW) and minimum safe altitude warnings (MSAW) are proposed. Ground-based safety nets make an essential contribution to safety and remain required as long as the operational concept remains human centred.				
<b>Element Implementation Status</b>				
1	<b>Element Description:</b> Short Term Conflict Alert (STCA)		<b>Date Planned/Implemented</b> 2005	<b>Status</b> Implementado
	<b>Status Details</b>			
2	<b>Element Description:</b> Area Proximity Warning (APW)		<b>Date Planned/Implemented</b> 2005	<b>Status</b> Implementado
	<b>Status Details</b>			
3	<b>Element Description:</b> Minimum Safe Altitude Warning (MSAW)		<b>Date Planned/Implemented</b> 2005	<b>Status</b> Implementado
	<b>Status Details</b>			
4	<b>Element Description:</b> Medium Term Conflict Alert (MTCA)		<b>Date Planned/Implemented</b> 2005	<b>Status</b> Implementado
	<b>Status Details</b>
