

Key info on the project

- New Project: **EU-Latin America and the Caribbean Cooperation on Civil Aviation (EU-LAC-APP III)**
- Overall objective of the action: *to support technical cooperation and partnership in civil aviation, fostering safe, sustainable and resilient air connectivity in Latin America and the Caribbean*
- Funding
 - Budget: 2 M€
 - Source: EU Commission
- Duration: 3 years / start period: Q3 2026
- Building on the results and activities of the two previous concluded technical cooperation projects **EU-LAC APP II** and **EU-CORSIA Caribbean** encompassing safety, air transport and sustainability dimensions

Implementation - Calendar

EU-LAC APP III targeted domains

Safety/Capacity Building

Connectivity, Air Transport Agreements, Market Access

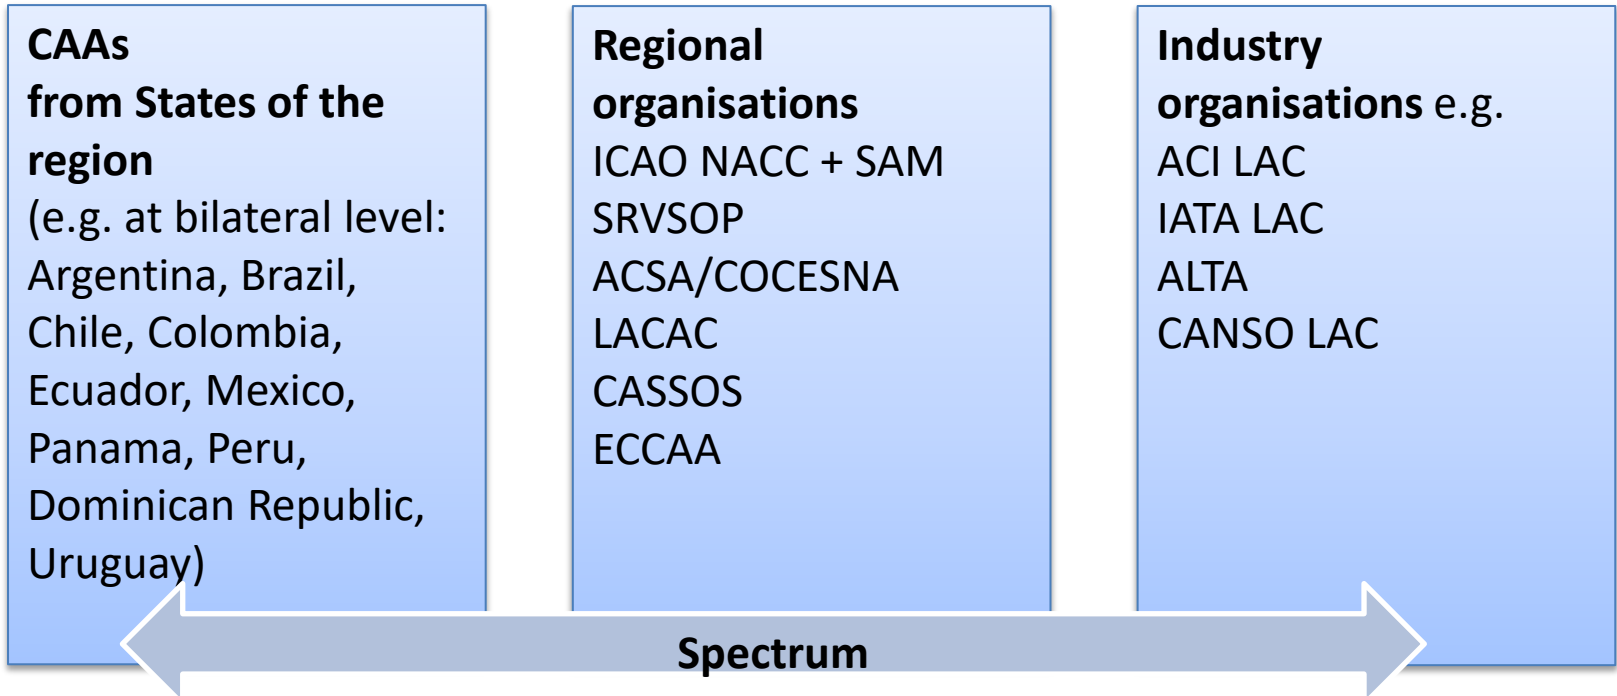

Regulatory Harmonisation / New technologies

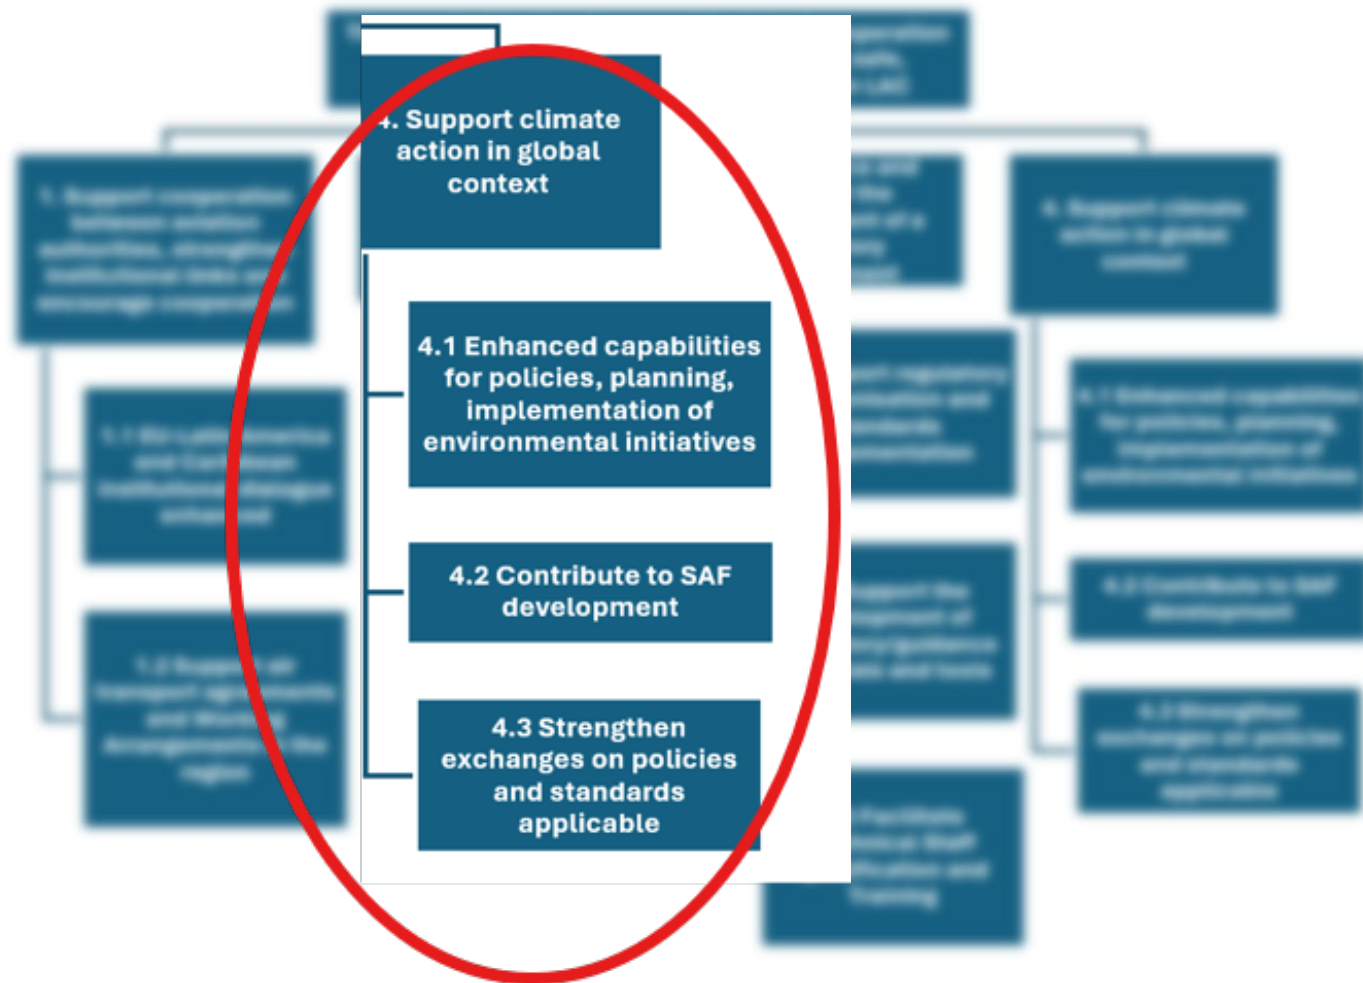

Sustainability / Climate action in global context

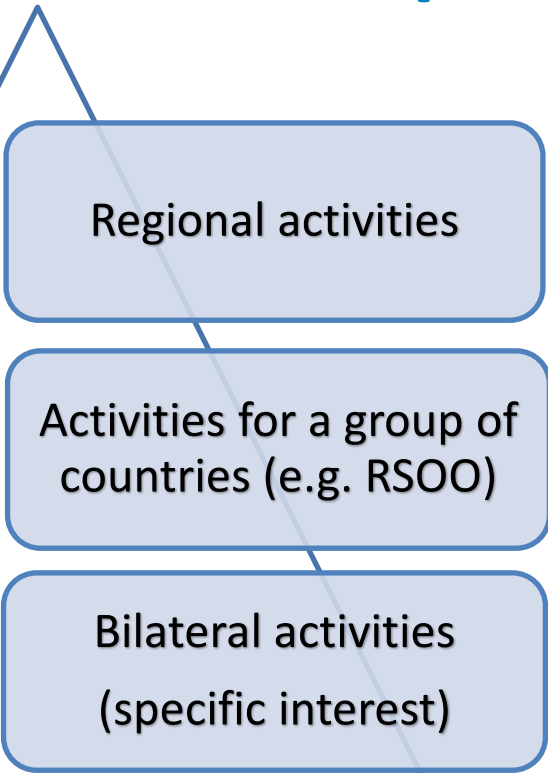

Who are the partners?

EU-LAC APPIII project structure

Overall Principles for the project

Regional activities

Close coordination and joint activities with regional institutions e.g. ICAO NACC, SAM, LACAC

Activities for a group of countries (e.g. RSOO)

Foster synergies with other implementation support partners and avoid duplications

Bilateral activities (specific interest)

Activities in coordination and/or upon request of partner states/organizations

Result oriented activities: each activity described in terms of measurable objectives and targets

Current project status

- ❖ Many activity proposals gathered from several stakeholders
- ❖ The input received is being analysed
- ❖ During the next few months the project plan shall be defined

Regional activities

- SAM/NACC workshop on “decarbonisation of the aviation sector”
- Regional workshop on CORSIA implementation after the ICAO 41 Assembly
- Informative session on management tools in the field of CORSIA
- High level conference on SAF (ICAO NACC and SAM)
- Workshop on CORSIA implementation and timelines
- Wildlife management in the aerodrome surroundings

Bilateral activities

ACSA	• Support in fulfilling CORSIA obligations • EU ETS • National/Regional Action Plan
Colombia	• CORSIA implementation • National Action Plan
Mexico	• Support in fulfilling CORSIA obligations • ETS obligations for airline operators , RefuelEU
Chile	• Definition&Implementation of a SAF roadmap. Vuelo Limpio. Mesa redonda • SAF and environmental capacity building
Argentina	• Process for accreditation of verifiers entities under CORSIA
Dominican Republic	• SAF
Cuba	• Process for accreditation of verifiers entities under CORSIA • High level Conference on Environment
