WORKING PAPER

NACC/WG/11— WP/02
06/09/26

Eleventh Meeting of the North American, Central American and the Caribbean Working Group (NACC/WG/11)

Guatemala City, Guatemala, September 21-25, 2026

Agenda Item 2: Follow-up to Conclusions, Decisions, previous agreements and the Work Programme of the NACC/WG, CAR/SAM Planning and Implementation Regional Group (GREPECAS) and regional initiatives related to air navigation

STATUS OF CONCLUSIONS AND DECISIONS OF NACC/WG/10 AND FOLLOW-UP ACTIONS OF NACC/WG/RAP/04

(Presented by the Secretariat)

EXECUTIVE SUMMARY	
This Working Paper presents the consolidated status of the twenty-two (22) Conclusions and Decisions adopted at the Tenth Meeting of the NACC/WG (NACC/WG/10) and the ten (10) follow-up actions agreed at the Fourth Meeting of Rapporteurs of the NACC/WG (NACC/WG/RAP/04), held online on 6-7 May 2026. It reports the current validity, target dates and related follow-up action for each Conclusion and Decision, presented in full with a comment's column at Annex A, and identifies recurring implementation challenges, to support their review, update and, where applicable, closure at NACC/WG/11.	
Action:	The Meeting is invited to review the status of the NACC/WG/10 Conclusions and Decisions at Annex A, confirm progress on the related NACC/WG/RAP/04 follow-up actions, and agree on any items to be closed, updated or re-validated, as detailed under Section 6 of this paper.
Strategic Objectives:	• Every Flight is Safe and Secure • Aviation is Environmentally Sustainable • No Country Left Behind
References:	• Summary of Discussions of the Tenth Meeting of the North American, Central American and Caribbean Working Group (NACC/WG/10) • Summary of Discussions of the Fourth Meeting of Rapporteurs of the North American, Central American and Caribbean Working Group (NACC/WG/RAP/04)

1. Introduction

1.1 This Working Paper presents the consolidated follow-up status of the Conclusions and Decisions adopted by the Tenth Meeting of the North American, Central American and Caribbean Working Group (NACC/WG/10), together with the key actions agreed at the Fourth Meeting of Rapporteurs of the NACC/WG (NACC/WG/RAP/04), held online from 6 to 7 May 2026.

1.2 NACC/WG/10 adopted a total of twenty-two (22) Conclusions and Decisions, comprising twelve (12) Conclusions activities requiring the approval of the Directors of Civil Aviation of the Region and ten (10) Decisions, corresponding to internal activities of the NACC/WG. At NACC/WG/RAP/04, Rapporteurs reviewed the status of implementation of these Conclusions and Decisions and agreed ten (10) key actions, mapped in Appendix B of the NACC/WG/RAP/04 Summary of Discussions, to advance their implementation ahead of NACC/WG/11.

1.3 This paper does not replace the full Summary of Discussions of either meeting; it consolidates, for ease of reference and decision-making at NACC/WG/11, the status of each Conclusion and Decision and the corresponding follow-up action and identifies the recurring implementation challenges raised by the Rapporteurs.

2. Status of the NACC/WG/10 Conclusions and Decisions

2.1 As of NACC/WG/RAP/04, all twenty-two (22) Conclusions and Decisions of NACC/WG/10 remained valid. The table below presents their status, together with the target date (“When”) recorded in the NACC/WG/10 Summary of Discussions. The majority carry NACC/WG/11 as their target completion point, meaning this Meeting is the natural checkpoint at which to confirm completion or re-validate outstanding items.

2.2 The full status table, including a column for comments from States, Territories and International Organizations, is presented at Annex A to this Working Paper.

3. Analysis

3.1 In reviewing follow-up to the Conclusions and Decisions of NACC/WG/10, NACC/WG/RAP/04 identified several recurring regional challenges that affect the timely closure of these items, including:

- weak follow-up mechanisms and limited monitoring of Key Performance Indicators (KPIs);
- outdated Points of Contact (PoCs) in several States and Territories;
- gaps in regional contingency planning;
- uneven State participation in Task Force and GREPECAS activities; and
- the need for stronger coordination among Task Forces and between the NACC and SAM Regional Offices.

3.2 The updated review indicates that implementation continues across several areas of the NACC/WG work programme. A number of Conclusions and Decisions remain ongoing, while NACC/WG/10/16 concerning the update of FPL eligibility information in the NAM/CAR Region has been

completed. Other actions require continued implementation, confirmation or updating of their associated timelines and follow-up mechanisms.

3.3 In the ATM and SAR areas, implementation continues through the AMCB/TF and SAR/TF, including regional airspace and capacity management activities, contingency planning, ADS-C/CPDLC implementation, performance monitoring, commercial space operations coordination, and follow-up to emerging issues related to aircraft in distress. These activities also support continued coordination with the SAM Region and alignment with GREPECAS and NACC/DCA priorities.

3.4 In particular, regional coordination of commercial space operations has continued to evolve following NACC/DCA/14, while dashboard and KPI activities continue to support a more standardized approach to implementation monitoring and reporting. These developments should be reflected in the continued implementation of the corresponding NACC/WG actions.

4. Conclusions

4.1 The follow-up to Conclusions and Decisions remains an essential governance mechanism for the NACC/WG, ensuring accountability, transparency and alignment with GREPECAS and the ICAO Global Air Navigation Plan (GANP). Consolidating the status of NACC/WG/10 and the actions of NACC/WG/RAP/04 in a single paper supports informed decision-making at NACC/WG/11 and reduces the risk of Conclusions and Decisions remaining open without a clear path to closure.

5. Suggested Action

5.1 The Meeting is invited to:

- a) take note of the information presented in this Working Paper;
- b) review and update the status of each NACC/WG/10 Conclusion and Decision listed in Annex A and B, closing those that have been completed and re-validating those that remain necessary; and
- c) task the Secretariat with consolidating the updated status of all Conclusions and Decisions for inclusion in the Summary of Discussions of NACC/WG/11.
