# USOAP CMA & SSP

# SSPIA Integration into USOAP Activities

- HLCC 2021 recommended integration of SSPIAs into traditional USOAP activities
  - Council approved the follow-up actions in 2022
- USOAP developed new set of SSP & SMS PQs
- Prior to official roll-out, 2 Beta-testing in 2025
- New PQs determined in SAT/ Non-SAT
  - similarly to all other USOAP PQs

# SSPIA Integration into USOAP Activities

- SSP PQs covered under new stand-alone audit area (similar to LEG and ORG)
  - encompass aspects that were previously covered in SSPIA's GEN and SDA
- SMS PQs integrated into different traditional technical areas
  - i.e. PEL, OPS, AIR, AIG, ANS and AGA
- SM PQs designed to allow flexibility for auditors
  - in accepting different ways States implement respective SARPs
- New SSP & SMS PQs will form part of the USOAP audits
  - applicable starting approx. Q3/Q4 2026
  - Once more precise rollout date established, ICAO will communicate to stakeholders
  - SSP portion of Integrated Mission Report to include EIs (overall & by SSP component)

# Action by the Meeting:

- The Meeting is invited to:
  - consider the update provided in the presentation during the deliberation under the relevant agenda items and take action as appropriate; and
  - urge States to develop and revise (if applicable) their NASP and provide it for posting on NASP Library to NACC and SAM Regional Offices with copy to [gasp@icao.int](mailto:gasp@icao.int)

Thank You!
