<i>Strategic Objectives</i>	<i>A – Safety, B – Air Navigation Capacity and Efficiency</i>

1 INTRODUCTION

- 1.1 The CODEVMET-AFI project was designed to assist States in resolving longstanding critical air navigation deficiencies in MET fields.
- 1.2 The Project is implemented within the legal framework established by the Management Service Agreement (MSA), in accordance with the Project Document attached to the MSA.
- 1.3 The MSA stipulates that States and Organizations become Members of the CODEVMET-AFI Steering Committee upon its signature. It does not impose any financial or operational obligations on the Members; rather, it provides a legal framework for the implementation of project(s) appended to it.

1.4 The MSA further provides that members of the CODEVMET-AFI Steering Committee delegate authority to its chairperson to sign project documents (Annexes to the MSA) and their revisions on their behalf.

1.5 This working paper presents the status of the CODEVMET-AFI Project membership as of 30 September 2025.

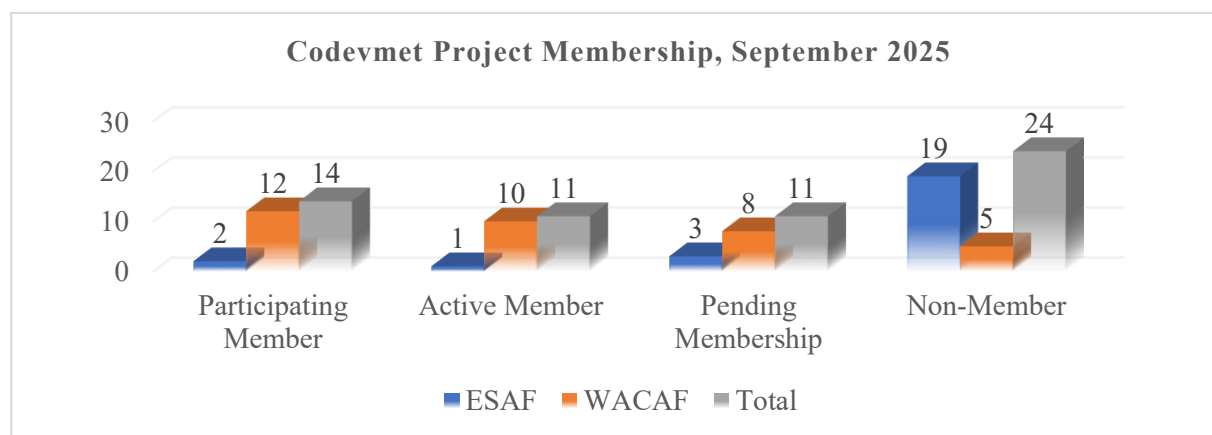

2 DISCUSSIONS

2.1. The Project membership consists of three types, as defined in the MSA and the Project Document (ProDoc):

- **Participating Members:** MSA signatory States or organizations that authorize the chairperson of the steering committee to sign the MSA Annex(es) on their behalf.
- **Active Members:** Participating Members that contribute financially to the project through an annual payment as approved by the Steering Committee.
- **Non-Members:** States or organizations that are neither Participating nor Active Members but can access to project services with payment.

2.2. As of the end of September 2025, the project's membership status is shown in Figure 1, with detailed information provided in Appendix 1. “Pending Membership” indicated in Fig. 1 and Appendix 1 represents “Non-Members” arranging for the signature of the project MSA.

Note: Participating Members are composed of 13 States and ASECNA

3 ACTION BY THE MEETING

3.1. The meeting is invited to:

- Take note of the information presented in this working paper; and
- Encourage States/organizations to actively engage in the project for the effective resolution of MET deficiencies.

Appendix 1: Membership of Codevmet Project, 2021 - 2025

Region	State	Participating Member	Active Member	Pending Membership	Non-Member	Date of signature of the MSA
ESAF	Angola				X
