

INTERNATIONAL CIVIL AVIATION ORGANIZATION

Ninth Meeting of the AASPG Infrastructure and Information Management Sub-Group (IIM/SG9)

Dakar, Senegal, from 3 to 7 August 2026

Agenda Item 5 : Implementation challenges of the sub-group

WP5.3 SADIS focal points

(Presented by Karen Shorey, WAFC London)

SUMMARY
This working paper invites States to check and update SADIS focal point information. Action by the meeting in paragraph 3
REFERENCE(S): ▪ ASBU AMET B2/4 and B3/4 ▪ ASBU SWIM-B2/2
This working document relates to ICAO Strategic Goal(s): A - Aviation delivers seamless, accessible, and reliable mobility for all.

1. INTRODUCTION

1.1 A copy of the part of the SADIS Focal Points document is included as Attachment A. It is created and maintained by the ICAO Headquarter in Montreal, and is reliant on people informing them of changes to the focal points.

1.2 The full list mostly contains the national met services, or in some cases the ANSP for around 100 SADIS using States. This document is very overdue for an update – and there are some entries that can be removed entirely as they are no longer SADIS using States, some entries that are completely wrong, and many out of date records as people have changed jobs.

1.3 The IIM-SG9 attendees are invited to review the entry for their State, and to let the SADIS manager (SADISmanager@metoffice.gov.uk) know the new contact details.

1.4 The IIM-SG9 is invited to agree on the following action:

IIM-SG/9 Action XX – SADIS Focal Point information

SADIS using States should:

- a) review the information provided in the SADIS Focal Points document (included as Attachment A)
- b) notify the SADIS manager with updated contact information or a request to delete the record by 30 September 2026 so that a document update can be initiated with the ICAO Secretariat.

2. ACTION BY THE MEETING

- 2.1 The meeting is invited to note the contents of this paper and to check and update SADIS focal point details if they are out of date.
