CORSIA Central Registry (CCR): Information and Data for Transparency

Part III: Total Annual CO_2 Emissions and Information for Aeroplane Operators

October 2026

CORSIA

Carbon Offsetting and Reduction Scheme for International Aviation

This is Part III of ICAO document "*CORSIA Central Registry (CCR): Information and Data for Transparency*" that is referenced in Annex 16 — *Environmental Protection*, Volume IV — *Carbon Offsetting and Reduction Scheme for International Aviation (CORSIA)*. Part III of this ICAO CORSIA document is material approved by the ICAO Council for publication by ICAO to support Annex 16, Volume IV and is essential for the implementation of the CORSIA. Part III of this ICAO CORSIA document is available on the ICAO CORSIA website and may only be amended by the Council.

***Disclaimer**: The designations employed and the presentation of the material presented in Part III of this ICAO CORSIA document do not imply the expression of any opinion whatsoever on the part of ICAO concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries.*

The table below shows the amendments to this ICAO document over time, together with the dates on which the amendments were published on the ICAO website.

Amendments to the ICAO document
"CORSIA Central Registry: Information and Data for Transparency - Part III"

Edition	*Amendment*	*Published*
1st	Total annual CO_2 emissions aggregated for all aeroplane operators on each State pair, and information for aeroplane operators, for year 2021	31 October 2022
2nd	Total annual CO_2 emissions aggregated for all aeroplane operators on each State pair, and information for aeroplane operators, for year 2022	31 October 2023
3rd	Total annual CO_2 emissions aggregated for all aeroplane operators on each State pair, and information for aeroplane operators, for year 2023	31 October 2024
4th	Total annual CO_2 emissions aggregated for all aeroplane operators on each State pair, and information for aeroplane operators, for year 2024	31 October 2025
5th	Total annual CO_2 emissions aggregated for all aeroplane operators on each State pair, and information for aeroplane operators, for year 2025	31 October 2026

PART III: Total Annual CO_2 Emissions and Information for Aeroplane Operators
Reporting year: 2025

Part III of ICAO document *"CORSIA Central Registry (CCR): Information and Data for Transparency"* has been prepared pursuant to Notes 1, 2 and 3 of Table A5-5 in Appendix 5 to Annex 16, Volume IV, and contains:

- Total annual CO_2 emissions aggregated for all aeroplane operators on each State pair (Note 1 b) of Table A5-5); and
- Information for aeroplane operators (Note 1 c) of Table A5-5).

Total annual CO_2 emissions aggregated for all aeroplane operators on each State pair

Total annual CO_2 emissions aggregated for all aeroplane operators on each State pair are presented in Part III – Table 1. The information in the table is based on the CO_2 emissions data submitted by reporting States through the CCR, and, where necessary, data provided by ICAO (in accordance with the provisions of Annex 16, Volume IV, Part II, Chapter 2, 2.5.2.2) for States that did not submit their aggregated Emissions Report in accordance with the timeline as defined in Appendix 1 to Annex 16, Volume IV. The Appendix to this document contains the list of the reporting States (shown as "Submitted") and the States for which data was provided by ICAO (shown as "Gap filling"). A description of the emissions gap-filling methodology is available on the ICAO website.[1]

In Part III – Table 1:

- The first column lists all State pairs for which CO_2 emissions data was available for the reporting year;
- The second column contains the total annual CO_2 emissions aggregated on each State pair subject to offsetting requirements;
- The third column contains the total annual CO_2 emissions aggregated on each State pair not subject to offsetting requirements;
- The symbols "*" and "-" signify that the aggregated total for the specific State pair was identified as partially or totally confidential as explained on the next page;
- The total aggregated values at the top of the table were calculated using both confidential and non-confidential data;
- All CO_2 emissions values were rounded to the nearest tonne.

Total annual CO_2 emissions aggregated for each aeroplane operator

Information for aeroplane operators is presented in Part III – Table 2 and is based exclusively on the data submitted by reporting States through the CCR (shown as "Submitted" in the Appendix to this document). For States that did not submit their aggregated Emissions Report through the CCR and ICAO provided data to fill the emissions gap in accordance with the provisions of Annex 16, Volume IV, no data for aeroplane operators of these States was included in this table.

[1] https://www.icao.int/CORSIA/CCR

In Part III – Table 2:

- The first column contains the name of each aeroplane operator for which its State of attribution submitted data through the CCR for the reporting year;
- The second column contains the State of attribution for each aeroplane operator;
- The third column contains the aeroplane operator's total annual aggregated CO_2 emissions (the value in the third column should be the same as the sum of the values in the fourth and fifth columns; any differences are due to rounding errors);
- The fourth column contains the aeroplane operator's total annual aggregated CO_2 emissions for all State pairs subject to offsetting requirements;
- The fifth column contains the aeroplane operator's total annual aggregated CO_2 emissions for all State pairs not subject to offsetting requirements;
- The sixth column indicates if the calculation of CO_2 emissions was based on the ICAO CORSIA CO_2 Estimation and Reporting Tool (CERT);
- The symbol "-" signifies that the submitted data was identified as confidential as explained below;
- The symbol "†" signifies that the aeroplane operator was identified by the reporting State as a new entrant within the exception period for offsetting requirements according to Annex 16 Volume IV, PART II, Chapter 3, 3.1.2;
- All CO_2 emissions values were rounded to the nearest tonne.

Treatment of confidential data

Pursuant to the provisions of Annex 16, Volume IV, Part II, Chapter 2, 2.3.1.6 and 2.3.1.7, some reporting States have indicated which data was confidential in their submission through the CCR (Annex 16, Volume IV, Part II, Chapter 2, 2.3.2.3). To ensure that confidential data is not attributed to any specific aeroplane operator in accordance with Annex 16, Volume IV, Part II, Chapter 2, 2.3.2.4, the following approach has been taken in calculating and publishing total aggregated CO_2 emissions.

For Part III – Table 1:

- Where three or more reporting States submitted CO_2 emissions on a specific State pair (irrespective of any indication of confidential data by one or more reporting States), all submitted data was used to calculate the aggregated total;
- Where two reporting States submitted CO_2 emissions data on a specific State pair and one of these two States indicated that its data was confidential, only the non-confidential data was used to calculate the aggregated total; the result is shown together with the symbol "*" to signify that the total does not contain the confidential data;
- Where one or two reporting States submitted confidential CO_2 emissions data on a specific State pair, this is shown with the symbol "-".

For Part III – Table 2:

- Where a reporting State indicated that an aeroplane operator's data was confidential, this is shown with the symbol "-".

Part III - Table 1: Total annual CO_2 Emissions aggregated for all aeroplane operators on each State pair

End of Part III - Table 2

APPENDIX
Status of 2025 CO_2 Emissions Reports

(As 31 October 2026)

Note: The status of reporting of CO_2 emissions is shown in the table below as: "Reported" or "Gap filling". "Reported" means the State has submitted data through the CORSIA Central Registry (CCR). "Gap filling" means that the Secretariat provided data for States that have not submitted an annual aggregated Emissions Report through the CCR in accordance with the timeline as defined in Appendix 1 to Annex 16, Volume IV (Annex 16, Volume IV, Part II, Chapter 2, 2.5.2.2 refers). A blank cell means that the State informed ICAO that no data was to be reported, or that the State has not reported any data and the gap filling methodology has resulted in either no emissions or emissions that are less than 10,000 tonnes.
