

Madison Carroll
Executive Director
Council on Sustainable Aviation Fuels
Accountability (CoSAFA)

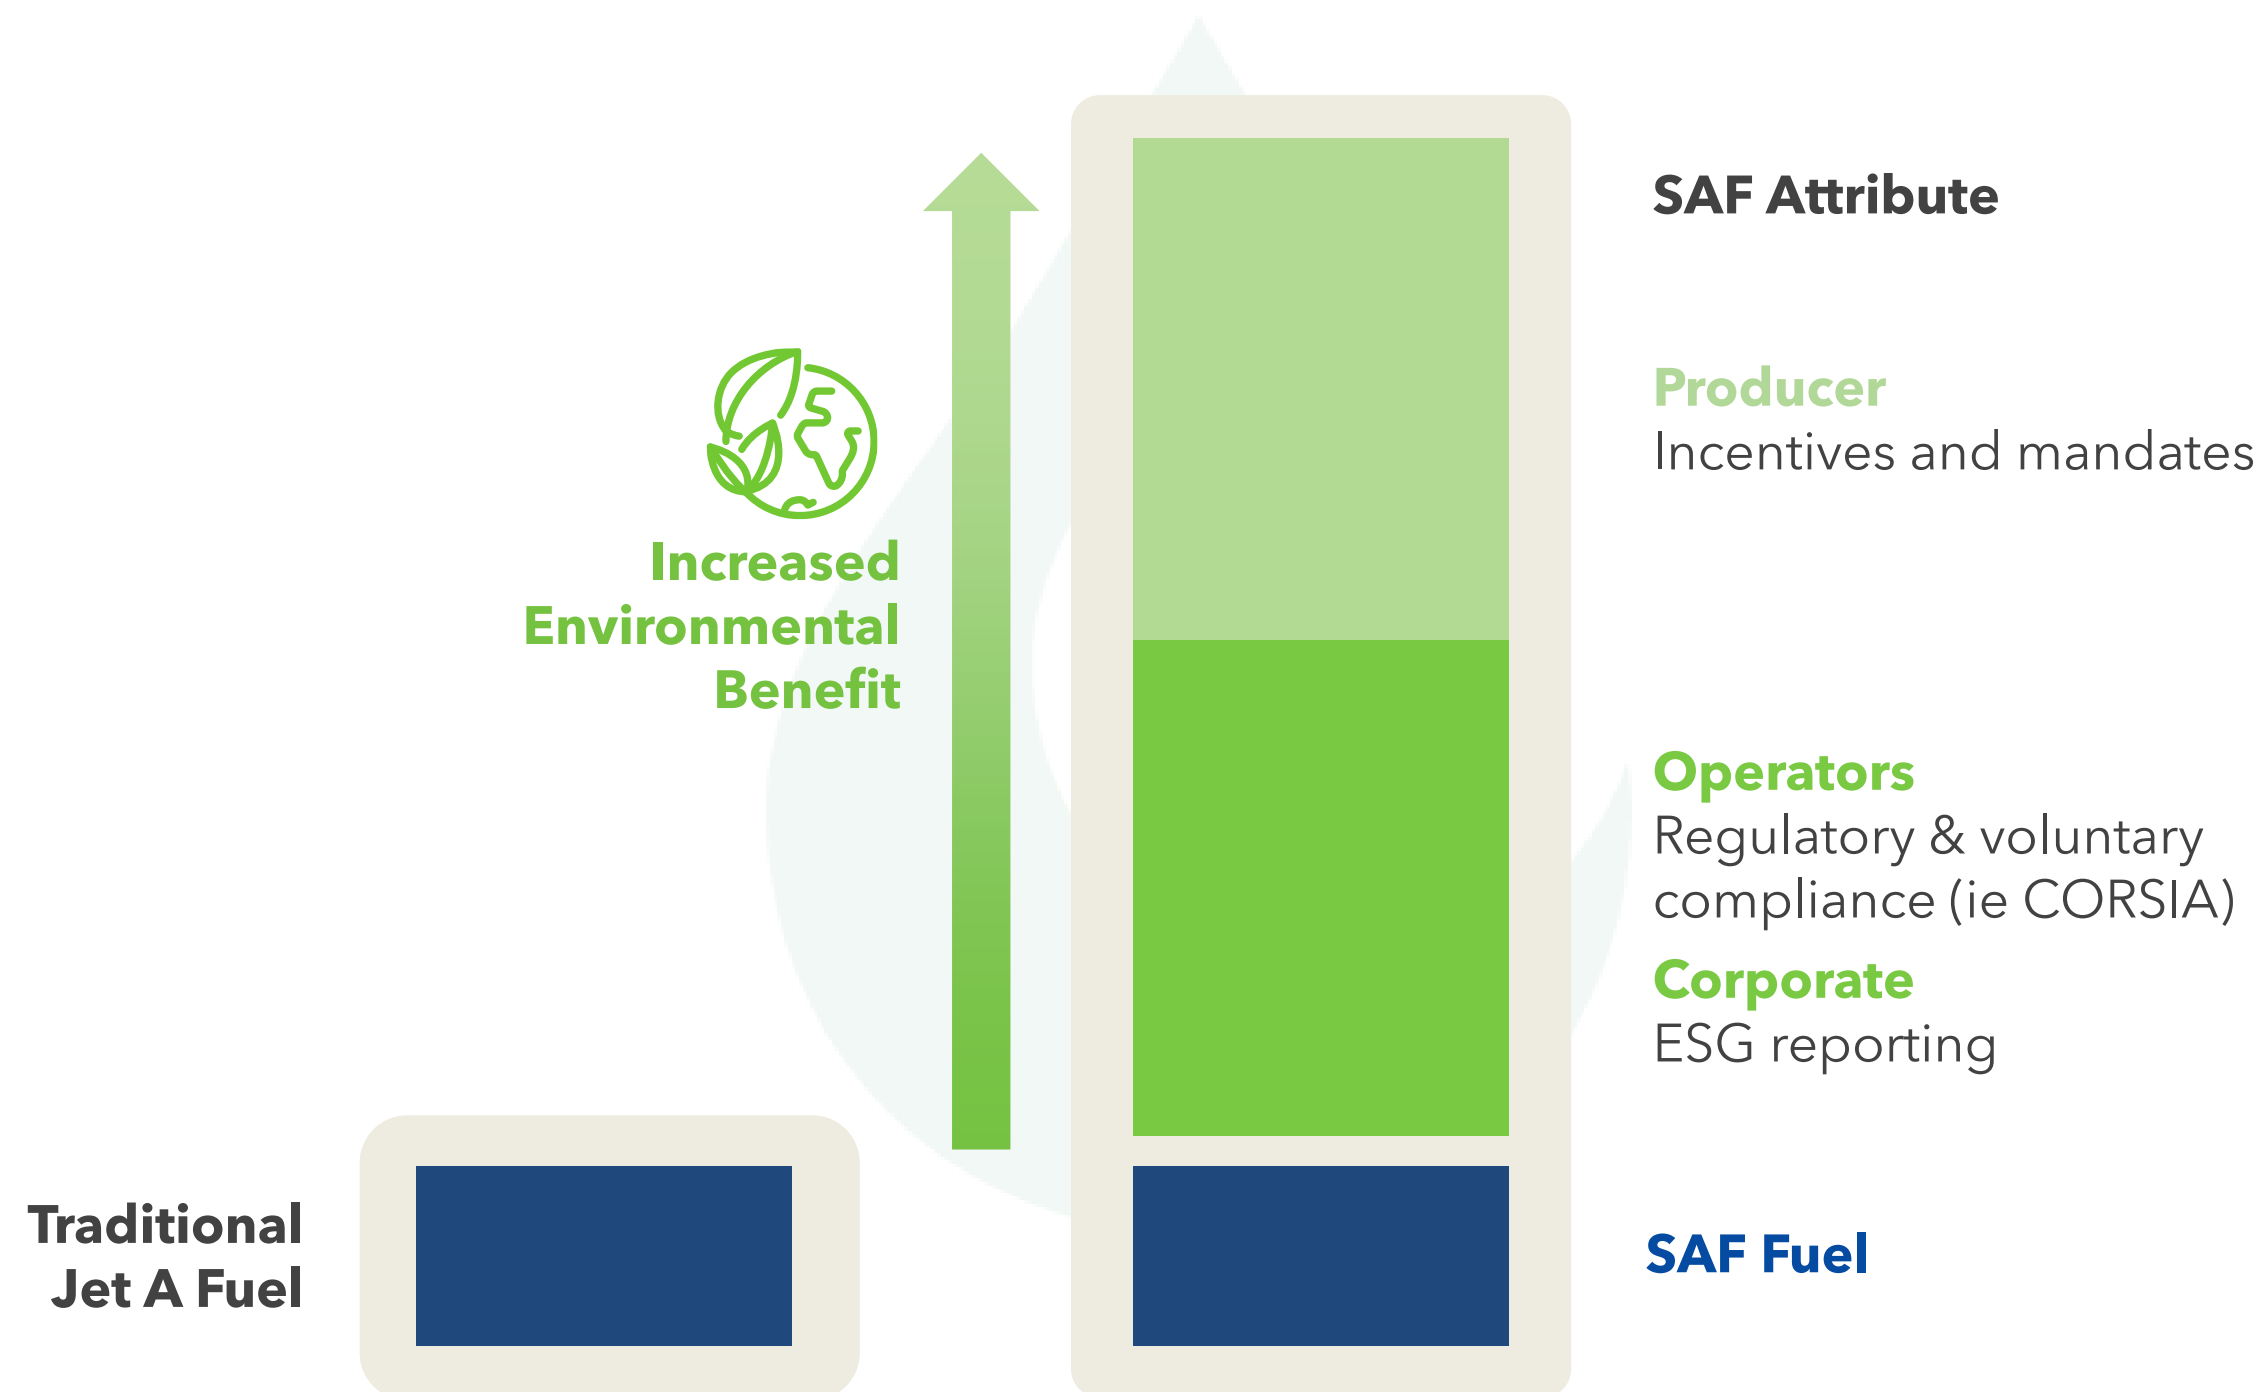

***Fair Rules for Transparent SAF
Transactions and Book and Claim***

Two Products: Fuel and the Environmental Attribute

What Is The Value of the Environmental Attribute?

Challenges of Buying SAF Environmental Attributes

How do customers (Scope 1 and 3) **understand – and verify –** what they are purchasing?

How do they know the product **hasn't been previously sold or claimed?**

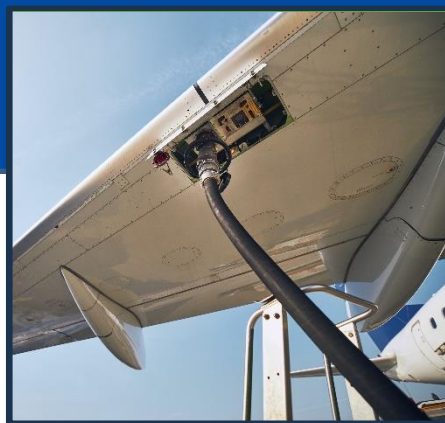

How can we ensure **reasonable access** to a product in short supply and high demand?

✈ CoSAFA Overview

Developing Generally Accepted Principles for SAF Transactions –
Supporting all chain of custody models to include **book and claim**

- ✓ **Clarity, consistency, and comparability**
- ✓ **Recognized and accepted by regulatory agencies** globally
- ✓ **Interoperable** with Individualized book and claim systems, registries, and ledgers

Developed Across the Aviation Sector

Publicly available, non-proprietary, designed and managed by the aviation industry with engagement by all relevant stakeholders
