Pathway to Net Zero by 2050

Pratt & Whitney is committed to sustainable aviation

How Pratt & Whitney is Powering Sustainable Aviation

Multiple pathways to decarbonize aviation

International Collaboration to Drive SAF Expansion

Pratt & Whitney strongly supports ICAO CAAF/3 goals

International consensus and alignment on long-term SAF goals is critical to enable aviation industry's net-zero decarbonization goal

- ✓ Helps industry plan for SAF deployment
- ✓ Sends strong signal to energy producers and financial markets to accelerate production
- ✓ Encourages state governments to support the global goal with national policy actions
