

ICAO Action

In order to widely publicize the safety aspects of this accident, as called for by the recommendation, an extract of the Australian Transport Safety Bureau (ATSB) accident report was included in the issue of the ICAO Journal (Number 1, 2005). The extract also referred to the ATSB website where the full accident report may be downloaded.

The ICAO Journal is published in English, French and Spanish and some 15 000 copies are distributed to all ICAO Contracting States and to a broad cross section of the aviation industry. In addition, the full accident report has been placed in the ICAO Accident Investigation and Prevention Section's electronic library of final reports, which will be available to States in the near future.
