

## ICAO Action

ICAO received similar recommendations in the past. All these recommendations have been taken into consideration by the Flight Recorder Panel and the panel are recommending Standards and Recommended Practices (SARPs) to be added to Annex 6 — *Operation of Aircraft*. The matter will be considered by ICAO during 2008 and subsequent amendments to the SARPs of Annex 6, *Operation of Aircraft* and Annex 13 — *Aircraft Accident and Incident Investigation* could result.
