

ICAO Action

The safety recommendation has been processed by ICAO and it is noted that ICAO has received similar recommendations in the past. In this regard, I am pleased to inform you that these recommendations have been duly considered by ICAO and that the Air Navigation Commission (ANC) has tasked the Flight Recorder Panel (FLIRECP) to discuss requirements for airborne image recorders. The recommendations of the FLIRECP are planned to be reviewed by the ANC in 2009.
