

ICAO Action

The two Safety Recommendations 2003-65 and 66, which concerned air cargo and dangerous goods matters, were considered by the ICAO Dangerous Goods Panel Working Group of the Whole at its meeting in October 2004. With respect to Recommendation 2003-65, it was agreed there was no need to further revise the recently amended paragraph 4.6.1 in Part 7 of the ICAO *Technical Instructions for the Safe Transport of Dangerous Goods by Air* (Doc 9284). Regarding Recommendation 2003-66, the panel agreed that there was a need to further consider the subject of electronic tracking of dangerous goods on aircraft. Accordingly, the subject will be placed on the agenda for the next meeting of the working group in April 2005.
