

## ICAO Action

With reference to the safety recommendation which calls for ICAO to make it mandatory, in the same way as for investigation reports, to respond to recommendations, please note that this is already captured in paragraph 6.10 of Annex 13 — *Aircraft Accident and Incident Investigation*. Furthermore, during the Accident Investigation and Prevention (AIG) Divisional Meeting (2008), it was proposed to expand Standard 6.10 in Annex 13 to read as follows:

### *Action on safety recommendations*

6.10 A State that receives safety recommendations shall inform the proposing State, within ninety days of the date of the transmittal letter, of the preventive action taken or under consideration, or the reasons why no action will be taken.
