

## **Safety Recommendation**

### **Safety recommendation 7.2.3 f)**

Given that information gathering is a key step to conduct flight risk assessment in potentially hazardous military conditions, review and enhance the available guidance material, such as the *Risk Assessment Manual for Civil Aircraft Operations Over or Near Conflict Zones* (Doc 10084), to provide further assistance to States and aircraft operators on the nature and method of gathering initial information, including its difference with NOTAMs issued.
