

ATFM/IR/SWG Meeting

Joint workplan for Multi-node and NARAHG

(Draft)

Presented by ATFM/IR/SWG

28th -31th August 2018

Work plan

Discussion

Clearly describe the operational concepts and procedures from each group

Seek and summarize the common principle for all groups

Make the minimum requirements list for seamless connect between groups

Doing HITL test on a simulation system to practice the feasibility

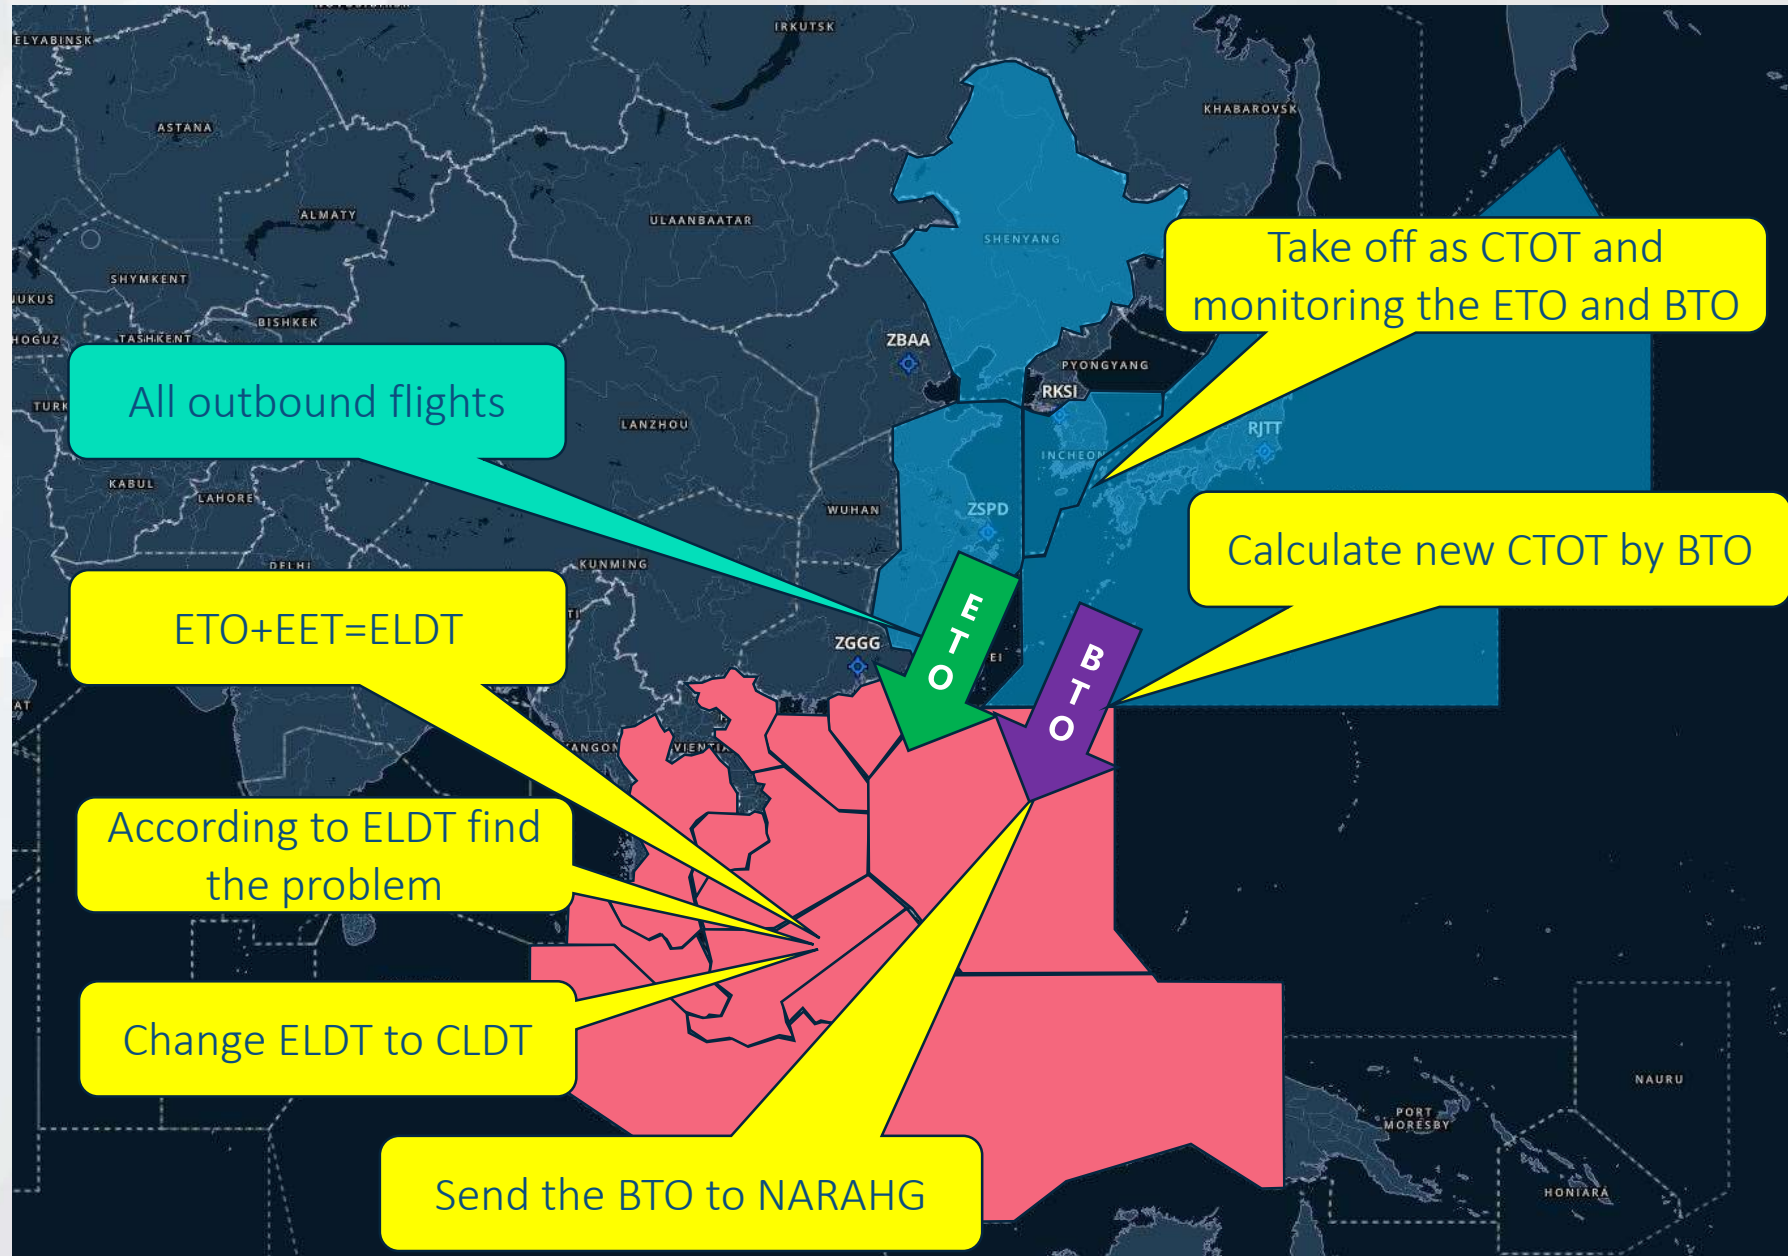

Draft the modification for the operation framework to ATFM/SG

Discuss the next plan before upgrade own systems

Start the test step by step

BTO: Boundary Time Overfly

Discussion

Thank You
