

Tentative Workshop Programme

Day 1:

Session 1: ATFM Implementation

- Doc 9971
- Asia Pacific Framework for Collaborative ATFM
- Regional ATFM Concept of Operations
- “Increase capacity is fundamental necessity”

Session 2: Capacity building/increase

- Airspace design
- CNS/ATM system availability
- Traffic complexity
- ATM factors
- Separation standards

Session 3: Brainstorming session

Day 2:

Session 4: Capacity assessment (Declared capacity)

- Airspace capacity
- Airport capacity
- Capacity determining methods

Session 5: Demand assessment

- ATM planning
- Traffic forecast
- Traffic demand

Day 3:

Session 6: How to manage capacity (Operational capacity)

- Weather
- Airspace design
- Automation system availability
- ATM factors

Session 7: Brainstorming session

Session 8: Wrap up session

- Summary and outcome of the workshop
