The Sixth Meeting of the Aeronautical Information Services – Aeronautical Information Management Implementation Task Force (AAITF/6)

Bangkok, Thailand, 15 to 17 March 2011

Agenda Item 9: Any other Business

SURVEY OF THE CURRENT STATUS OF AIM IMPLEMENTATION

(Presented by Japan)

SUMMARY

This paper proposes the necessity of survey on the current status of AIM implementation in the Asia/Pacific regions.

1. INTRODUCTION

1.1. The “ICAO Roadmap for the transition from AIS to AIM” provides States with a strategic framework to transition from traditional product-centric AIS to the data-centric AIM. The roadmap indicates twenty-one steps in three Phases and AIS-AIMSG has been working to develop related SARPS and guidance materials to facilitate implementation in a worldwide harmonized manner.

1.2. There are some States already achieved some steps in the roadmap. Some States established national AIM implementation plan in accordance with the roadmap and are advancing necessary action as planned.

1.3. It is unavoidable that there might be a large gap between the States in the regions regarding an approach for AIM because of size of an organization or budget problem etc. However, it is important to share information of each State regarding AIM implementation and to consider how AAITF will provide further support in the regions.

2. DISCUSSION

2.1. In view of the above, it is suggested that Task Force should conduct a survey to gain a better understanding of the current status of AIM implementation of the State, though Task Force in conjunction with regional office conducted a survey in relation to automation, Quality systems, Aeronautical Data requirements and eTOD in the past.

2.2. **Appendix A** is a draft survey on AIM. As requirements or procedures are not fully clarified in some steps, the questionnaires do not cover all of the steps.

2.3. The survey result will be reviewed at the next AAITF meeting or ATM/AIS/SAR SG meeting.

3 ACTION BY THE MEETING

3.1 The meeting is invited to:

- a) understand the necessity of the survey in relation to AIM implementation in Asia/Pacific regions; and
- b) examine the contents of the survey.

Survey on current status for AIM implementation in the Asia/Pacific regions

State:	
Respondent Name:	
Organization	
Job Title:	
Email:	

Related Phase 1

Q1. Has QMS been implemented in your State?

a) If yes, does your AIS organization have ISO9001 certification?

b) If no, please specify future plan.

Comment:

Q2. Do you consider "AIRAC adherence" is implemented in your State?

a) If no, please specify the reason etc.

Comment:

Q3. Has WGS-84 been implemented in your State?

a) If yes, specify if it is fully or partially implemented.

b) If no, specify future plan.

Comment:

Q4. Do you consider "Monitoring of Annex differences" is implemented in your State?

a) If yes, specify how it is implemented. (tool, methods etc.)

b) If no, specify future plan.

Comment:

Related Phase 2

Q5. Has electronic AIP been implemented in your State?

a) If no, specify future plan.

Comment:

Q6. Has electronic terrain data been implemented in your State?

a) If yes, specify detail.

b) If no, specify future plan.

Comment:

Q7. Has electronic obstacle data been implemented in your State?

b) If yes, specify detail.

c) If no, specify future plan.

Comment:

Q8. Has aerodrome mapping been implemented in your State?

a) If no, specify future plan.

Comment:

Q9. Has “Aeronautical information conceptual model” been implemented in your State?

a) If yes, specify the AIXM version number.

b) If no, specify future plan.

Comment:

Q10. Has “Integrated aeronautical information database” been implemented in your State?

a) If no, specify future plan.

Comment:

Q11. Has “Data integrity monitoring” been implemented in your State?

a) If yes, specify how it is implemented. (tool, methods)

b) If no, specify future plan.

Comment:

Q12. Has “Data quality monitoring” been implemented in your State?

a) If yes, specify how it is implemented. (tool, methods)

b) If no, specify future plan.

Comment:

Related Phase 3

Q13. Has training for AIS been implemented in your State?

a) If yes, is AIS officer required to obtain AIS license?

b) If no, specify future plan.

Comment:
