Decision-making processes, working methods and procedures of the Council (Clause 4 b) of the resolution)

The review should have as its central themes:

The emphasis here is on a vigorous **procedure** for reporting **independently and directly** to the Council on the effectiveness, transparency and accountability of all ICAO programmes. Improving structure and response to State letters for better implementation of SARPs, PANS and Global plans

19.7 The Committee considered A40-WP/461, presented by Cuba, and sponsored by Argentina, Aruba, Belize, Bolivia, Brazil, Colombia, Costa Rica, Dominican Republic, El Salvador, Guatemala, Honduras, Jamaica, Mexico, Nicaragua, Panama, Paraguay, Peru and Venezuela (the Bolivarian Republic of) regarding the structure of the text of SARPs amendments adopted by the ICAO Council featuring different applicability dates. The Committee recognized the benefits of the increased visibility for SARPs with delayed applicability in the new editorial practices, but also recognized the concerns expressed about complications in filing of differences when using the new format. The Committee recommended that ICAO consider the complications identified in the filing of differences and make any necessary adjustments to address them.

19.8 The Committee considered A40-WP/467, presented by Cameroon. The Committee recognized that the development of the online system for responses to proposed amendments to SARPs and PANS was not fully completed, and further noted that the activities referred to in the paper will be subject to the resources available in the 2020-2022 Regular Programme Budget and the availability of extra-budgetary resources. The Committee was also informed that the Council had considered an evaluation report on the ICAO Standard Setting process and the Secretariat will take the information in the working paper into account as it implements the recommendations of the report.

19.9 The Committee considered A40-WP/245 presented by the United Arab Emirates. The Committee welcomed the information in the working paper and acknowledged that, while significant progress has been made by ICAO to move towards a results-based management framework, there was still some work to be done. The Committee recognized that the new processes established by the Global Air Navigation Plan (GANP) and Global Aviation Safety Plan (GASP) aimed at keeping the global plans relevant and the results, focused, and agreed that the recommendation of the paper should be referred to the GANP and GASP Working Groups, for their consideration and action. The Committee further noted that the Secretariat is in the process of implementing a project-oriented approach that links the work programmes of Headquarters and Regional Offices with the GANP, the GASP, as well as the Sustainable Development Goals (SDGs).
