

**NINTH MEETING FOR THE IMPROVEMENT OF AIR TRAFFIC SERVICES
OVER THE SOUTH ATLANTIC (SAT/9)**
(Lima, Perú, 6 - 10 November 2000)

Agenda Item 6: Any Other Business

SATMA WEB SITE

(Presented by Spain)

Summary

This Working Paper pretends to establish the initial criteria to design, developing and publish an official Web Internet site for SATMA.

1. Introduction

On 22th April 1997 a meeting was held in Recife. The representation from Cape Verde, Spain (Canarias), Dakar and Brasil came to the conclusion that a “Permanent Group” in the South Atlantic Area was needed to unify navigation and communication Systems, to collect and develop data and incident statistics and to watch over the implement and improve of ATM Services in the EURSAM corridor.

Recife SAT/6 meeting (1997 -November 24th-28th) pay attention to that conclusion and Spain is in charged to collect and process all the Data from the ACCs to re-send them to Regional offices in Dakar an Lima and to present them in SAT meetings. Later, SAT/7 established that the Regional Monitoring Agency was responsible for the co-ordination of the implementation of RNP10 and RVSM in EURSAM Corridor.

Finally, SAT/8 held in Gran Canaria (1999-November 8th-12th) creates the “South Atlantic Monitoring Agency” (SATMA) with the head office in Spain to perform all the tasks mentioned plus the “Safety Risk Assessment” preceding the implementation of RNP-10 and RVSM.

Although the creation of an E-mail address (satma@aena.es) has done a lot to collect all requests and , what is more important , to offer the companies and SAT members a real and unique site , a further effort should be done.

2. Objectives

Air Companies asking for procedures/transition areas (RNP-10,RVSM) in EURSAM Corridor ...

Air Companies informing about RNP-10/RVSM certification for the aircrafts ...

ACCs asking for or sending Data related to the Corridor “Safety Risk Assessment”....

Navigation internal users looking for any conclusion of any SAT meeting....

Technical Staff asking for CAFSAT procedures and reports.....

This, and much more that is to come, is a sign of the information demanded by users and members from SATMA group in this first year of existence. As commented above the E-mail address satma@aena.es has done a lot, but we must go one step beyond the users requirements in order to offer the best service : A quickest , easiest and up-to-dated site of information should be achieved.

The response is clear: we all know that, at that time, the most universal, easiest and quickest solution to get and publish ANY information is the INTERNET WIDE WORLD WEB.

For all that reasons, SATMA office in Spain is going to design and publish the SATMA site so any member, customer or user has a reference about SATMA.

3. Items to consider

- 1) A SATMA domain should be acquired : satma.org – satmasat.org -....
- 2) Agreement for Logo and Home Page for SATMA.
- 3) Criteria about Information to Publish
 - 2.1) SAT conclusions
 - 2.2) Graphics (CAFSAT topology, Airways Maps.)
 - 2.3) Data and statistics retrieved/demanded/received in SATMA
 - 2.4) Dates and “State of art” for programs and projects (Risk Analysis, RVSM,..)
 - 2.5) E-mails, phones and staff involved
 - 2.6) Air Companies certifications for RNP-10/RVSM
- 3) Links
 - 3.1) SATMA-SAT member home page
 - 3.2) Institutions (OACI , APARMO , NATS..)
 - 3.3) Air companies
 - 3.4) Any other to consider
- 4) Security
 - 4.1) Full Access to members
 - 4.2) Define Restricted Areas
 - 4.3) Establish password criteria

5) Server & Webmaster.

In the SATMA office in Spain (Canary Islands)

5.1) the Webmaster should :

- Keep the web page up to date
- Manage all technical aspects (server software & hardware, domains,..)
- Manage the security of the site
- Protocol to receive from the members the information they want to publish
-

5.2) An Internet Server will be installed in SATMA office in Spain (Canarias) to initiate the project as soon as possible.

4. Action Proposed

4.1 The meeting is invited to:

- a) Consider the Web site design and publishing project, and
- b) Agree to the Notes nominate the actual SATMA office as Server and Webmaster site.
