GESTIÓN DEL TRÁNSITO AÉREO**

(Santa Cruz, Bolivia, 27 al 31 de enero de 2003)

**Asunto 3: Revisión de los asuntos relacionados con la Implantación RVSM en las
Regiones CAR/SAM**

**d) Grupo de Trabajo sobre Operación de Aeronaves y
Aeronavegabilidad (OPS/AIR/WG)**

FLOTA JET REGISTRADA EN LAS REGIONES CAR/SAM

(presentada por IATA)

RESUMEN

Esta nota de estudio presenta una lista detallada de la flota comercial jet registrada en las Regiones CAR/SAM. Este listado incluye los operadores y sus puntos de contacto.

1. Descripción

1.1. Esta lista abarca todas las aeronaves comerciales registradas en las Regiones CAR/SAM dedicadas a cualquier actividad que no sea militar, tal como: Transporte de pasajeros, carga, taxi, negocios, transporte de enfermos, fotografía, etc. No incluye las aeronaves militares o gubernamentales usadas para el transporte general, de ejecutivos o VIP. La lista es basada en el estatus de las aeronaves registradas en el año 2002.

1.2. La lista muestra la matrícula de las aeronaves, tipo y modelo, la actividad a la cual se dedica la aeronave, Estado donde está registrada, operador, central y base del operador y contactos del operador.

1.3. Las aeronaves registradas fuera de los Estados de las Regiones CAR/SAM, pero operados por compañías basadas en un Estado de las Regiones CAR/SAM, han sido incluidas. La razón de ello es que aunque la aeronave haya sido aprobada RVSM por el Estado de registro, la línea aérea operando este tipo de aeronave debe ser aprobada RVSM por el Estado donde la línea aérea está basada.

2. **Propósito**

2.1. El propósito de esta lista es proveer a los puntos focales de los Estados de una información preliminar de las condiciones de la flota basada en dicho Estado. Adicionalmente, esta información es útil para CARSAMA con objeto de obtener un bosquejo del número de aeronaves que tienen que ser certificadas, monitorizadas y aprobadas.

2.2. Considerando de que la información contenida en esta lista cambia constantemente, los puntos focales RVSM de cada Estado deberán ser responsables de actualizar periódicamente esta lista e informar de ello a CARSAMA y a los grupos de trabajo RVSM.

3. **Acción Requerida**

3.1. Se solicita a Grupo a distribuir la lista adjunta a los Estados y a CARSAMA para ser usada como una herramienta para el seguimiento del progreso RVSM de los Estados y operadores basados en las Regiones CAR/SAM.
