**THIRD WORKSHOP/MEETING OF THE SAM IMPLEMENTATION GROUP (SAM/IG/3)
REGIONAL PROJECT RLA/06/901**

Lima, Peru, 20-24 April 2009

**Agenda Item 7: Operational implementation of new ATM automated systems and
integration of the existing ones**

(Presented by Uruguay)

SUMMARY

This working paper proposes a method of the following of the implementation of the minimum requirements for the automated systems in the SAM Region.

Reference:

SAM/IG/2, Appendix A to the report on the Agenda Item 6 - Requirements for the Automation SAM System.

1. Introduction

1.1 During the SAM/IG/2 was submitted the Requirements for the SAM Automation System containing the common basic functionality for the automated systems in the ACCs of the SAM Region, which represents an invaluable element to get the harmonization and integration of the systems.

2. Discussion

2.1 Taking into account the preliminary document on Requirements for the SAM Automation System, it should be compile a template that allows for a follow-up on the state of the equipment of the different ACCs in the SAM Region and its modifications, in order to achieve the minimum requirements.

2.2 This template would be revised and updated in each SAM/IG meeting.

3. Suggested Action

3.1 Analyze the convenience of this initiative in the Automation Working Group and propose the adequate Template if it is understood desirable.
