

IATA's Training and Qualification Initiative (ITQI)

GABRIEL ACOSTA

Manager, Safety Operations & Infrastructure Dept.
Latinamerica and Caribbean

IATA

- International Air Transport Association
- International trade body
- Established in 1945
- 237 Member airlines
- 93% of scheduled international air traffic

to represent, lead and serve the airline industry

Goal 1: Modernization of training

- Competency-based training approach
- Continuous review of programs
- Focus on human performance
- Training to match advancement of technologies

Flight Operations

- Evidence Based Training (EBT)
- Instructor & Evaluator Qualification (IEQ)
- Multi-crew Pilot Licensing (MPL)
- Selection Criteria - Pilot Aptitude Testing
- Flight Simulator Training Devices (FSTD)

Engineering & Maintenance

- Competency Based Training and Qualification
- Certification standards for training providers
- Selection criteria

Achievements

- Awareness
- MPL
- EBT
- Competency Framework for E&M
- 7th Edition - FSTD Design & Performance Requirements
- Pilot Aptitude Testing - 1st Edition of Industry Best Practices for Selection

Goal 2: Identify means to improve industry attractiveness

- ITQI to collaborate with NGAP Task Force
 - Instructor/Evaluator Qualification
 - Command Competencies through NGAP FCL Task Force
- Global implementation of training schemes
 - MPL as an international standard

Goal 3: Increase global market permeability and harmonization

The map shows a world map with several regional logos and markers. In North America, there is a logo for Transport Canada and another for the FAA. In Europe, there is a logo for EASA. In Asia, there is a logo for CAAC. Numerous yellow dots are scattered across the map, indicating global presence or focus areas.

- Increase market flexibility
- Harmonized standards
- Globally accepted and implemented

IATA's targets

- Develop guidance material for EBT by end of 2011
- Begin global implementation of:
 - Evidence-based training schemes
 - Proof of Concept Programs with Member Airlines
 - Engineering & Maintenance Competency-based training schemes
 - An established ICAO standard
- Coordination of Outreach Activities with ICAO NGAP
