

Agenda Item 1: Follow-up to conclusions and decisions adopted by SAM/IG meetings and tasks for the States regarding the new Electronic Air Navigation Plan (eANP)

Follow up to valid conclusions formulated by SAM/IG meetings and pending activities

(Presented by the Secretariat)

SUMMARY	
This working paper has the intention that the Meeting may proceed with the revision on the application by SAM States of valid conclusions and pending activities formulated by SAM Implementation Group workshop/meetings (SAM/IG).

ICAO Strategic Objectives:	<i>A - Safety B - Air navigation capacity and efficiency E - Environmental protection</i>

1. History

1.1 The workshops/meetings of the SAM Implementation Group have timely produced a series of agreements translated into conclusions, that indicate the actions to be carried out by the Implementation Group and/or States, as well as activities assumed by the Working Groups.

1.2 This working paper presents a revision of the valid conclusions and pending activities of the SAM Implementation Group (SAM/IG) workshops/meetings.

2. Analysis

2.1 During previous SAM/IG meetings, some conclusions were formulated and a series of activities were adopted, oriented towards the implementation of different functions that will enable the Region to evolve in a sustainable manner towards the application of the global ATM Operational Concept.

2.2 The implementation programmes foreseen for the application of the global ATM Operational Concept in the SAM Region have been initially focused in the following:

- a) SAM ATS routes network optimisation;
- b) Performance Based Navigation (PBN) both for en-route, terminal area and approach areas;
- c) Air Traffic Flow Management (ATFM);
- d) CNS systems improvements;
- e) Automation.

Summary of the status of implementation of tasks and conclusions

2.3 To show the status of implementation of the conclusions and actions adopted, the updated list shown in Appendix A to this working paper has been prepared. The information attached refers to the information available in the Secretariat with each one of the agenda items.

2.4 The list of conclusions and actions comprises:

- a) tasks to develop and/or the corresponding conclusion in the areas under analysis;
- b) specific tasks which will lead to compliance of the main task;
- c) expected results in each task;
- d) finalization dates;
- e) responsible persons for its execution;
- f) supporting members for each task; and
- g) status of implementation of the same, and when necessary, for a better understanding, an explanatory comment on the status of implementation is included.

2.5 The Meeting should analyse each task identified and make the comments on specific tasks resulting, evaluate, and if necessary, modify the finalisation date, as well as the status of implementation of each specific task. The Meeting may also wish to complete the chart shown in **Appendix B** to this working paper, showing the tasks in charge of the States, in order to make a follow-up of the same.

3. **Suggested action:**

3.1 The Meeting is invited to:

- a) Request the Working Groups, to analyse the tasks in the corresponding areas in Appendix A to this working paper, evaluate each one of the tasks and its status of compliance, and complete the information, as applicable;
- b) request States to complete the chart shown in Appendix B to this working paper, in order to follow-up on those tasks under the responsibility of their respective administrations;
- c) if necessary, adopt the pertinent courses of action in relation to each one of such tasks; and,
- d) analyse other considerations to this respect that the Meeting may deem pertinent.
