# iSTARS Walkthrough

Marco Merens

Chief, Integrated Aviation Analysis (IAA) Section  
ANB, International Civil Aviation Organization (ICAO)

# Agenda

- **What** is iSTARS
- **Why** to use iSTARS
- **Who** can use iSTARS
- **When** to use iSTARS
- **How** to use iSTARS
- **More** about iSTARS

# What is iSTARS

- *Integrated Safety Trend Analysis and Reporting System*
- *A website*
- *Contains massive datasets*
- *Collects over 30 web applications (APPs)*
- *Covers 12 categories*

# Why to use iSTARS

Quick & Convenient Interface

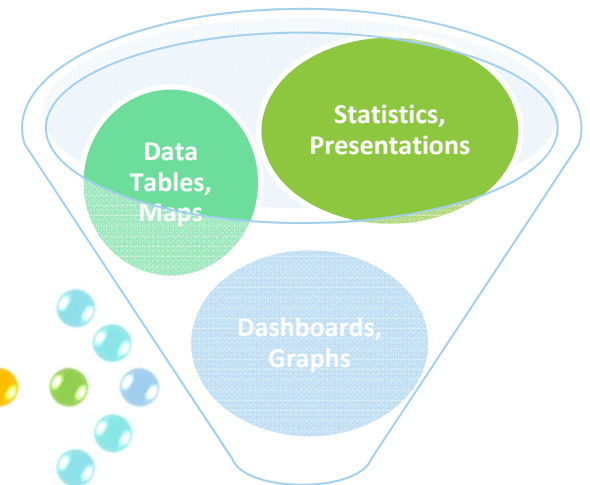

Abundant & Authoritative Data

Precise Analysis

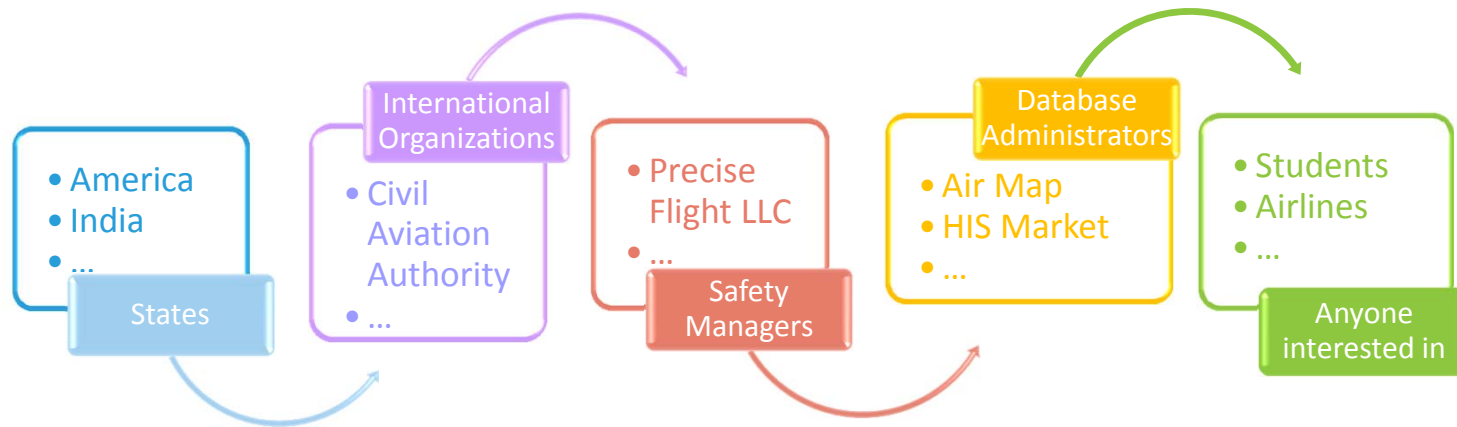

Comprehensive Information

Conducting safety, efficiency and risk analysis

# Who can use iSTARS

**MORE THAN  
3000+**  
Users registered in  
iSTARS

# When to use iSTARS

Q1

Need comprehensive information about international airports?  
( ask each airport? )

Q2

Looking for information about airports with scheduled commercial traffic including number of flights, number of runways and layout for airports selectable by State of region?  
( ask each State? )

Q3

Require charts and data displaying the route network and the direct connections between countries in the world?  
(ask Google? )

Q4

Need a map displays the location of the airports as well as ranges and bearings between airports?  
( ask Geography teachers? )

Q5

Calculates the economic development indicators for states from ICAO's Air Transport Bureau?  
( ask the government? )

Q6

Or, you have any other requirements?  
( ask your mum? )

Go to  
iSTARS

# How to use iSTARS

iSTARS is a group on the ICAO Secure Portal, so the **registration process** is different for current Portal members and new users.

- **Process for NEW USERS of the ICAO Secure Portal**

*Fill in the registration form. Acceptance may take up to 48 hours. You will be sent your username and password by email.*

- **Process for CURRENT MEMBERS of the ICAO Secure Portal**

1. *Login to the ICAO Secure Portal account with username and password.*
2. *Subscribe to group "iSTARS." Acceptance may take up to 48 hours. You will be sent your username and password by email.*
3. *Once you have approval, login to the portal and click on group iSTARS. You will find in the NEWS section tutorials in English, French, and Spanish to get started.*

After logging into iSTARS, you can **start to use** it.

1. *Click on CATALOGUE and install applications*
2. *Use GROUP MANAGER to create and share groups of States, Regional Organization, etc.*
3. *View and launch applications from My APPS*
4. *Export raw data or use apps to generate data tables, images, and charts for reports*
5. *Share your research with others*

## More about iSTARS

*Q: Is it free to use?  
A: For the iSTARS website, YES.  
For the datasets, some need to pay.*

*Q: Now I have a general idea about iSTARS, but where I can get more details  
A: We also provide workshop for advanced use of it. Go to iSTARS website or contact us to know more about it.*

*Q: Can I reprint or copy the information from iSTARS?  
A: Yes, the user can download the APPs, reprint and copy the information and materials, but only for internal, non-commercial use.*

*Q: What's the contact information?  
A: Send us an email by [istars@icao.int](mailto:istars@icao.int) to know more*
