GRSS2017

Second Global Runway Safety Symposium

20 – 22 November 2017, Lima, Peru

Objectives

- Review global achievements in improving runway safety since GRSS in 2011.
- Improve runway safety worldwide through global collaboration and an exchange of strategies and best practices.
- Review root causes of runway accidents and incidents.
- Obtain endorsement of the Runway Safety Programme action plan for supporting and strengthening runway safety initiatives.
- Promote the participation of stakeholders in regional initiatives related to runway safety
- Increase the number and improve the effectiveness of airport Runway Safety Teams (RSTs) under a risk based approach and understand the relationship with the airport SMS
