The objective of this meeting is to provide support in the preparation of the implementation of Phase 2 of the “ICAO Roadmap for the transition from AIS to AIM”, as well as to follow-up GREPECAS AIM projects and States’ action plans to achieve the transition to the AIM. The meeting will also review proposals for amendment to Annex 15, the future implementation of PANS-AIM and the alignment of the AIM section of the GANP SAM PBIP, in its version 2015.

For this meeting, it is recommended that delegations be integrated by experts directly involved in the implementation of a Quality Management System in the AIS (QMS), in the management of Electronic Terrain and Obstacle Data (e-TOD), as well as in the aeronautical information/data exchange (AIXM).

The meeting will be conducted in Spanish, with English simultaneous interpretation service **only** if confirmation of English speaking participants is received at this Regional Office **no later than 31 July 2017**.

Under **Attachment A** you will find the Draft Agenda and corresponding explanatory notes to be discussed during the meeting. The general information on the venue of the meeting can be found in ICAO SAM Office website, <http://www2010.icao.int/SAM/>.
