Subject: **RASG-PA aeroplane upset prevention and recovery training (UPRT) workshop for
CAR/SAM Regions**
Sao Paulo, Brazil, 5 to 6 June 2018

Action
required: Confirm the participation of one operations inspector **no later than 23 March 2018**

Sir,

I have the honour to invite you to participate in the RASG-PA aeroplane upset prevention and recovery training (UPRT) workshop for CAR/SAM Regions, to be held in Sao Paulo, Brazil, from 05 to 06 June 2018, within the framework of the Regional Aviation Safety Group — Pan America (RASG-PA).

The 2-day UPRT workshop is intended to qualify operation inspectors of CAR/SAM States on UPRT approval of air operators and flight instruction centres, as well as flight simulators and aeroplanes dedicated to provide this type of instruction.

The qualification of operation inspectors will enable States to initiate the implementation of Standards and Recommended Practices adopted by ICAO Council on 4 March 2014, corresponding to Annex 1 – Personnel Licencing, and to Annex 6 Part I – International Commercial Air Transport — Aeroplanes.

In this sense, the implementation of referred Standards and Recommended Practices, supported by orientation texts, has the purpose to reduce accidents by loss of control in flight (LOC-I). The safety benefit of UPRT is that pilots are trained to avoid and, if necessary, recover from upsets with a resulting decrease in the number of LOC-I related fatalities.
