DATA ANALYSIS

SMART HEALTH TRAVEL

BY easy airport

1 | HEALTH RISK PROFILING (API/PNR)

2 | CONTACT TRACING

- Infection risk level countries alerts

The screenshot displays a travel system interface with a red alert banner that reads "El pasajero visito paises con riesgos COVID-19!!". A blue arrow points from a "TOP" icon to the alert. The interface includes a form with fields for name (ALAIN), date (76), and country (SUIZA). A "Huella D" section shows fingerprint and facial scan options. A passport image is visible at the bottom with the name "George".

Form fields:

- Nombre: ALAIN
- Fecha: 76
- País: SUIZA

Alert banner: **El pasajero visito paises con riesgos COVID-19!!**

Icon:

Text: **Paises visitados por el pasajero**

Buttons: **Aceptar**

Passport details: **George**, **X4125636**

Easy Airport Passenger Flow | 2018

SMART HEALTH TRAVEL

BY [easy airport](#)

- Touchless: adapt human-machine interaction.
- MobileID: move some interactions to the passenger's personal mobile devices
- Off-the-airport: move airport building procedures off-the-airport

GENERAL LESSONS LEARNED FROM THIS PANDEMIC

SMART HEALTH TRAVEL

BY  easy airport

- National level restrictions.
- Opportunities for touchless and seamless flows.
- Impact on airport building capacity.
- Passengers are anxious for information.
