

## **Vladimir Zubkov**

Graduated from the Civil Aviation Academy in St-Petersburg.

Currently Special Advisor to the TIACA (The International Air Cargo Association) Board on Industry Affairs. Secretary General of TIACA from 1 January 2017 to July 2020. TIACA is a global trade association representing airlines, airports, ground handlers, logistics and IT companies, aircraft and equipment manufacturers, and educational institutions.

Started career at Sheremetyevo International Airport as ground handling manager, later working for Aeroflot as General Manager for Denmark, Sweden and the UK, before moving to its HQ as Deputy Commercial Director and Director of International Finance and Accounting.

Worked for 22 years for ICAO as Director of the Air Transport Bureau, responsible for regulations, security, facilitation, statistics, and forecasting, later as Director, Planning and Global Coordination responsible for consistency of work in all seven ICAO Regional Offices, the introduction of ICAO regulations in a compatible manner in all parts of the world and business planning practices in the ICAO HQ.

Between 2008 and 2016 – Vice President of Volga-Dnepr Group of Companies, responsible for relations with international organizations and governments: ICAO, IATA, ACI, WCO, TIACA and UN, introduction of paperless environment for cargo transportation in Russia, aviation security regime and development of e-commerce and training requirements in the transportation sector.

In 2011, was included in the list of the Top 1,000 Russian managers and was ranked in the top 5 in Russia in the category “Government and Industry Relations” (Transport sector).

Presently member of the ICAO COVID-19 Outbreak Technical Team, including, apart from the large ICAO contingent, all ICAO international partners participating in the development of responses to the critical situation and refinement of ICAO COVID-19 Road Map.

### ***Amar More, CEO, Kale Logistics Solutions - Profile***

*Amar is an accomplished professional with over 20 years of experience in supply chain, consulting and technology industries.*

*He is appointed as the Domain Controller of Cross Border Domain at United Nations CEFACT. He is on the panel of trade facilitation experts at UNECE (United Nations Economic Commission of Europe). He is on Confederation of Indian Industries' (CII) Task Force for Ease of Doing Business. He is on the panel of National Committee on Logistics for Federation of Indian Chambers of Commerce & Industry (FICCI).*

*He also has the unique distinction of being the first Indian to receive the “CILT International Young Achiever Award – 2009” for his work in transportation technology. Amar is also on the executive committee on International Port Community Systems Association (IPCSA) headquartered in the United Kingdom. He is the past co-Chairman of IT committee of “Maharashtra Chamber of Commerce, Industry & Agriculture (MACCIA)”.*

*Amar’s passion is to bridge the technology gap between the developed and developing logistics industries globally and his talented and passionate team at Kale Logistics has developed disruptive new generation technology solutions for the logistics industry which are transforming the industry and raising the levels of technology adoption in the SME sector of logistics industry in India & Globally. Their work has received global accolades from several international forums as being the “Best Technology Provider to the Logistics Industry” for last 10 years. Amar also assists several governments on conceptualizing trade facilitation initiatives to usher in “Ease of Doing Business” using digital technology.*

*The foundation of Amar’s excellent domain expertise is his rich educational background with a Bachelor’s Degree in Electrical Engineering and an MBA in Supply Chain Management from India’s premiere institute- NITIE.*

*As co-entrepreneur, **Alex Driesen** runs business development and marketing at Nallian, the world's leading provider of Collaborative Clouds for Airport Cargo Communities.*

*Nallian's data sharing platform and collaborative applications empower cargo communities around the globe to synchronize processes across companies and truly operate as one around one single version of the truth instead of as individual silo's. Such seamless collaboration delivers efficiencies, increased service levels and increased visibility for all, making the airport more attractive for all cargo stakeholders, and growing volumes without having to invest in extra physical infrastructure. On the fly, it increases resilience of the overall cargo system, helping to make cargo future proof.*

*Before joining Nallian, Alex was part of the executive team that built the logistics tech company Zetes Industries (now Panasonic) from a local startup into a 1200 people-18 countries international group. Alex has held corporate roles with focus on strategy, internationalization, and corporate, market and organizational development, as well as general management roles managing the company's regional P&L's from bases in Brussels, London and Johannesburg. Alex is also a board member in several tech companies and a venture capital fund.*

*Alex has a master degree in engineering from Univ of Antwerp, a master degree in computer science from Univ of Hasselt, an MBA from Flanders Business School, and an AMP from Harvard Business School.*

*Steven Polmans spent most of his career in the world of aviation and held management positions, both operational and commercial, in the handling industry. On October 1, 2010, he joined Brussels Airport as Cargo Marketing Manager and on February 1st, 2012, Steven was appointed Head of Cargo and Logistics. In this position, he is responsible for developing and implementing the overall cargo strategy of the airport. Since 2016, Steven was also one of the founding fathers of Air Cargo Belgium and the first chairman of this newly established air cargo organisation at BRUcargo, grouping all stakeholders involved. In August of the same year, Steven also joined the board of TIACA, The International Air Cargo Association, of which he became Vice Chairman in October 2017. On April 1st, Steven was promoted to Director Cargo & Logistics and amongst his new responsibilities, he is now also in charge of all cargo real estate development and portfolio management. In July 2019, Steven took over the role of Chairman at TIACA, a position he still holds today.*

**Steven Polmans**

Director Cargo & Logistics – Brussels Airport Company

Chairman – Air Cargo Belgium

Chairman - TIACA

***Elliott Paige** is the Director for Air Service Development at Hartsfield-Jackson Atlanta International Airport. He joined the world's busiest and most efficient Airport after a successful career promoting trade and investment for over 20 years, including serving 10-years as a diplomat in Geneva, Switzerland. Elliott also worked as an international civil servant with the World Trade Organization and the United Nation's International Trade Center.*

*During this period, Elliott designed and delivered strategies to increase trade, open markets, and develop industries. He was a lead negotiator in the Trade Facilitation Agreement and was instrumental in getting support from many developing countries. He applies his experience to ensure that the Airport has a positive economic impact on creating jobs and promoting trade while taking advantage of new trade paradigms.*

*Since at Hartsfield-Jackson, he has built solid relationships with aviation executives worldwide, recruited several international passenger and cargo airlines, plus several domestic airlines. Various stakeholders work in partnership to boost air service – Mayor's Office, Metro Atlanta Chamber, Atlanta Conventions and Visitors Bureau, Georgia Department of Economic Development, the diplomatic community, and private sector associates. He has revised the Air Service Incentive Program according to Federal Aviation Authority rules to attract new routes. He continues to direct the implementation of the Airport's air service cargo strategy to increase cargo value and volume.*

*Elliott is implementing the first cargo community system in the United States in Atlanta while facilitating the establishment of an Atlanta cargo network among cargo stakeholders. He is keen to implement new technologies and to maximize the use of already established technologies that can help increase passenger and cargo flow while improving efficiencies of operations.*

*When not traveling, Elliott enjoys running, hiking, reading, writing, following international affairs, and spending time with friends and family. He has a master's degree in Economic Development, a bachelor's in economics and management, and holds global certifications as International Airport Professional (IAP) and Airport Executive Leadership Professional (AELP) from Airports Council International and Concordia University. Elliott speaks English, French, and Spanish. He is a board member of the World Trade Center Atlanta chapter, the Atlanta Air Cargo Association, the Georgia Council for International Visitors, Technology Association of Georgia, a trustee of The International Air Cargo Association, and an advisory board member of Clayton State University School of Supply Chain Management, and Georgia Tech Supply Chain Logistics Institute.*
