# Makron Family: PLATAO (SIMULADOR ATC)

This information is proprietary, and can't be disclosed without Atech's written authorization..

# Makron Family: COSMOS (R-AFIS)

R-AFIS - COSMOS system centralizes meteorological information, flight plans and airspace surveillance data for several aerodromes in a single platform. It offers resources specifically designed to provide flight information services as an AFIS (Aerodrome Flight Information Service) for aerodromes at remote locations, optimizing the use of specialized operational personnel, characterizing the R-AFIS (Remote Aerodrome Flight Information Service).
