Dear Sir/Madam:

I would like to refer to the 2021 program of the Regional Project RLA/06/901 activities that was adopted at the Fourteenth Meeting of the Coordination Committee (RCC/14, Virtual, December 1st, 2020), which included the implementation of activities for the action plan for functional improvements in the provision of meteorological services for international air navigation.

In that sense, it is a pleasure to extend the invitation to the MET Coordination Meeting for the SAM Region to be held virtually from November 29 to December 1st, with the following objectives:

- i. Evaluate and monitor the activities developed under the MET Program Projects and align them with the ASBU;
- ii. Evaluate the Implementation of Contingency Plans for Volcanic Ashes and Release of Radioactive Material; and,
- iii. Evaluate the Review and update of the ATS/MET Service Agreements.

To ensure compliance with the objectives of the event, the participation of MET personnel in charge of decision-making at the technical and managerial level, as well as ICT personnel that provide support to the aeronautical meteorological services, is essential.
