

Agenda Item 4: Review of Project H4 - OPMET exchange and MET Tables of the CAR/SAM e-ANP

Review of Tables MET II-1 and MET II-2 of the CAR/SAM e-ANP

(Presented by the Secretariat)

SUMMARY	
This working paper presents the request to review MET Tables II-1 and MET II-2 in order to update or amend them, if needed.	
References:	
<ul style="list-style-type: none">• CAR/SAM e-ANP• ICAO Doc 9377• Doc 7910 – Location indicators• Report of the ePPRC/03 meeting	
ICAO strategic objectives:	<i>A - Safety</i> <i>B - Air navigation capacity and efficiency</i> <i>E - Environmental protection</i>

1. Introduction

1.1 The Regional Air Navigation Plan is a tool containing the navigation services and infrastructure made available by a State for international air navigation.

1.2 Tables MET II-1 and MET II-2 can be found in Vol. II of the Regional Air Navigation Plan.

1.3 The ePPRC/03 meeting issued Conclusion ePPRC/03-09 on the review of the CAR/SAM e-ANP AOP and MET Tables.

2. Discussion

2.1 The CAR/SAM Regional Air Navigation Plan is a document that contains detailed information on:

- Air navigation facilities and infrastructure;
- Air navigation services; and
- Procedures required for air navigation within a specific geographical area.

2.2 These services, facilities and procedures are declared by States in accordance with Art. 28 of the Chicago Convention.

2.3 MET Table II-1 refers to information provided by a Meteorological Watch Office, while MET Table II-2 refers to information and services generated by an Aerodrome Meteorological Office. MET Table II-2 must be aligned with the AOP Table in both Vol. I and Vol. II in terms of number of aerodromes, four-letter codes and aerodrome name. Tables MET II-1 and MET II-2 are found as **Appendix A and B**, respectively.

2.4 Furthermore, the AOP, MET II-1 and MET II-2 Tables must coincide with the location designator and the name appearing in Doc 7910 - Location Indicators.

2.5 The Meeting should recall that ePPRC/03, through Conclusion ePPRC/03-9, requested States to amend the AOP Table in Vol. I and Vol. II, in order to update and correct the information contained therein. To this end, States should:

- a) review the aerodromes listed in CAR/SAM ANP Volume I, Table AOP I-1 not later than 4 December 2021;
- b) review ANP Volume II, Table AOP II-1, in order to obtain the list of facilities and services to be provided by the State concerned at each aerodrome listed in Table AOP II no later than 4 December 2021;
- c) generate and submit to the ICAO NACC and SAM Offices proposals for amendment to the CAR/SAM ANP Volume I, Table AOP I-1 and ANP Volume II, Table AOP II-1 in accordance with the template provided in WP/14 (Appendix A) of the ePPRC/03 meeting (1), if their international aerodromes are not listed in Table AOP I-1 or require amendments to update the information provided in Tables AOP I-1 and AOP II-1 not later than 4 December 2021; and
- d) assess whether the proposals for amendment (PfA) to the AOP Tables impact the CAR/SAM e-ANP Volume II, Table MET II-2, and if so, propose another PfA for Table MET II-2 no later than 4 December 2021.

2.6 States should make sure that the aeronautical meteorological (OPMET) information provided to ATS, COM, AIS, SAR units under these agreements includes, at least, the OPMET information contained in Tables MET II-1 and MET II-2.

3. **Suggested action**

3.1 The Meeting is invited to:

- a) take note of the information provided in this working paper;
- b) review the information contained in Appendices A and B, and update it as necessary;
- c) take note of Conclusion ePPRC/03-09 and take action accordingly, if none has been taken yet; and
- d) take any other action it may deem appropriate.
