Within this new planning framework adopted by GREPECAS, I am pleased to invite your Administration/Organization to participate in the **First NAM/CAR/SAM Meeting/Workshop on Planning the Implementation of Automatic Dependent Surveillance - Broadcasting (ADS-B/ANP/1)**, which will be held by teleconference, from March 02 to 04, 2022.

The objective of the Meeting/Workshop is to assist the States in the implementation of the ADS-B OUT in accordance with the planning methodology applied in the new Volume III of the CAR/SAM ANP, based on the ASBU (Aviation System Block Upgrade) Threads and Modules/Elements recommended in the sixth edition of the Global Air Navigation Plan (GANP).

The event is aimed at planners for the implementation of air navigation services specialized in the area of surveillance at an operational and technical level (ATM, ATFM, CNS, Information Technology, etc.), mainly the members of the CNS/ANP and CNS/SUR Subgroups of the Interoperability Task Force (GT Interop), in the case of the SAM States and the Surveillance Task Force of the NAM/CAR Region, SURV/TF.
