During the event, States shall submit their approved SAM Region contingency procedures for message service; the routing tables will be reviewed; information at EUROCONTROL's AMHS Address Management Centre (AMC) will be updated; likewise, the information contained in Table CNS II-1 of the CAR/SAM Air Navigation Plan will be updated; and, other issues related to the message service will be discussed, such as, for example, support to the ATM/FPL Subgroup of the GT Interop in the mitigation of errors and duplication of flight plans.

In this regard, I am pleased to attach the Tentative Agenda (**Attachment A**), Mnemonic Note Paper (**Attachment B**) and Information Paper (**Attachment C**) containing general information of the event.

It is important to note that participants of this event should be involved with the management of AMHS COM Centers, with the management of interconnections of adjacent COM centers and with the attribution of user addresses and distribution lists (DL). It will be an essential requirement that participants present, during the event, the updated table of routing used in each COM AMHS Center (**Attachment D**) so that they can be sent to the EUROCONTROL AMC.

The opening session will be held on **February 21, 2022 from 13:45 UTC (08:45 Lima time)**.
