ACI-ICAO Airport Safety Professional (ASP) Designation Programme

Description

- ACI-ICAO ASP programme leads to a unique and prestigious professional designation for airport safety professionals and civil aviation regulators.
- Designed and delivered by ACI-ICAO certified instructors, the ASP will provide candidates with opportunities to advance in their career, and brand themselves as airport safety subject matter experts.
- The objective of the program is to train and recognize senior airport managers and airport regulators that have demonstrated an understanding of relevant ICAO SARPs, professional excellence in the field of airport airside operations, as well as maintaining ACI industry best practices.

How we deliver our Training?

GAT delivers ICAO training courses through the following channels:

1. 100 + TRAINAIR PLUS Programme Members and Partners
2. Training Service Agreement (TSA) with Civil Aviation Authorities, Air Navigation Service Providers, Airports and private organizations
3. Implementation Packages (iPacks)
