1. Introduction

1.1 From May to July 2023, CARSAMMA conducted an audit to investigate the validity of RVSM approvals issued between 2000 and 2010. The objective of this work was to increase the accuracy of the RMA database and, in turn, to update the information with States.

2. Discussion

2.1. In the first phase of the work, 262 aircraft with RVSM approvals issued between 2000 and 2010 that were still in force were selected. In the second phase, these aircraft were separated by States so that they could be notified to the Civil Aviation Authorities. The third phase was the period of responses from the Aviation Authorities and the updating of the Agency's database.

2.2. Twelve States have been notified. CARSAMMA received responses from eight States. Twenty-five aircraft were removed from the RVSM approval list upon receipt of F3 forms, as shown in the table below.

STATE	NUMBER OF APPROVED REGISTRATIONS 2000 TO 2008	DATE OF NOTIFICATION TO THE AAC	DATE OF AAC RESPONSE	F3	AIRCRAFT THAT REMAIN APPROVED
