ICAO strategic objectives:	<i>A – Safety</i> <i>B – Capacity and efficiency</i>

1. Background

1.1 The SAM/AIM/15 meeting reviewed Doc 7383 - Aeronautical Information Services Provided by States.

1.2 SAM/AIM/15 requested States to review the aforementioned document and update it as necessary.

1.3 SAM/AIM/15 also requested the Secretariat to review the procedures for updating the information contained in the cited document.

2. Discussion

2.1 The SAM/AIM/15 deemed it necessary to review the information concerning SAM States contained in the cited document, and in case of discrepancies between the services provided by States and those declared in the document, to forward the differences to ICAO with a copy to the Secretariat, no later than 30 June 2023.

2.2 The SAM/AIM/15 meeting also invited the Secretariat to consult with ICAO Headquarters on the procedures for updating the document, considering that the current version contained very old information, which had not been updated for more than 10 years.

2.3 The Secretariat has been in contact with Headquarters to consult on updating procedures. Headquarters would provide the procedures but has nevertheless asked about the usefulness of the document and its use at the operational level.

2.4 The Meeting may wish to consider preparing a survey to be circulated among aeronautical information users to assess the operational use of the document. It may also consider preparing a working paper to be submitted to the Aeronautical Information Panel or other air navigation forum to assess the need to maintain or eliminate the cited document.

3. **Suggested action**

3.1. The Meeting is invited to:

- a) take note of the information contained in this document;
- b) make comments regarding paragraph 2.4;
- c) consider any other actions it may deem appropriate.
