NOTAM CONTINGENCY PLAN

(Presented by the Secretariat)

SUMMARY	
This working paper follows up on the implementation of the NOTAM contingency plan by 2023.

ICAO strategic objectives:	<i>A – Safety</i> <i>B – Capacity and efficiency</i>

1. **Background**

1.1 SAM/AIM meetings follow up the implementation of the NOTAM contingency plan.

1.2 The follow-up teleconference reviewed again the implementations related to the Plan.

1.3 Communications with States revealed difficulties with the updating of contingency plans.

1.4 Contingency plans have been implemented in response to situations that have arisen in some SAM States.

2. **Discussion**

2.1 Information on the status of implementation of NOTAM contingency plans was provided during the SAM/AIM/15 meeting.

2.2 The Meeting will recall that, at that meeting, it was noted that Venezuela did not yet have the backup of Peru due to the fact that the legal consultancy of INAC had not yet defined its objection to clause 8.1 of the Backup Agreement with Peru, and that Panama had reported changes in the telephone numbers of the NOF Office and had included an email address. The updates are shown in **Appendix A** to this working paper.

2.3 Likewise, the Meeting will note that Suriname has experienced some contingencies during the first half of 2023.

2.4 Furthermore, the change of name of the air navigation service provider of Bolivia (formerly AASANA and now NAABOL) required an update of the data of the NOTAM bank and NOF of Bolivia.

2.5 States are requested to provide information on the implementation of the NOTAM contingency plan.

3. **Suggested action**

3.1. The Meeting is invited to:

- a) take note of the information presented in this working paper;
- b) provide information to update the table contained in Appendix A; and
- c) consider any other action it may deem appropriate.
