

**TENTATIVE AGENDA AND EXPLANATORY NOTES**

(Presented by the Rapporteur)

**Agenda Item 1 – Review of tests and trials results for the GNSS implementation.**

Under this agenda item, in accordance with Task No. 2 of the Group Work Programme, members of States and International Organizations, participating in RLA/00/009 and RLA/03/902 projects as well as other GNSS related activities present to the meeting results obtained as of this date. The meeting shall consolidate results and issue recommendation proposals, taking into account studies carried out of the impact on the ionosphere in GNSS signals in the Ecuadorian zone, which are being held by the Group of Experts of the ICAO Navigation System and the need to reduce the ionosphere impact according to the GNSS evolution for the SBAS implementation in the CAR/SAM Regions.

**Agenda Item 2 – Study of the actions recommended by the Joint Coordination Meeting of RLA/00/009, RLA/03/902 and RLA/98/003 Projects.**

Under this Agenda Item, the Meeting will take note of Conclusions TR1/01 and TR1/02 and shall examine and prepare proposals on recommendations issued by the Coordination Meeting of Projects RLA/00/009, RLA/03/902 and RLA/98/003, which are presented as Appendix to this Agenda.

**Agenda Item 3 – Coordination of technical-operational studies alternatives for the Regional SBAS implementation.**

Under this Agenda Item, in accordance with Task No. 3 of its Work Programme, participants will present proposals to coordinate studies of technical options for a CAR/SAM Regional SBAS implementation. For this purpose contribution of projects RLA/00/009 and RLA/03/902 must be taken into consideration.

**Agenda Item 4 – Other matters**

Under this Agenda Item, the Group will examine any other matter related to the Terms of Reference and the Work Programme of the Group. Results and utilization plans for the ABAS (RAIM) for GNSS monitoring on early applications of the systems in their respective States must be considered among the mentioned matters
