

International Civil Aviation Organization
CAR/SAM Regional Planning and Implementation Group (GREPECAS)
Tenth Meeting of the Aviation Safety Board (ASB/10)
(Punta Cana, Dominican Republic, 28 March 2011)

ASB/10 - WP/01
14/02/11

DRAFT AGENDA

- Agenda Item 1:** **Revision of the “U” priority air navigation deficiencies**
- Agenda Item 2:** **New methodology for identifying, reporting and classification of air navigation deficiencies**
- Agenda Item 3:** **Other business**

EXPLANATORY NOTES OF THE AGENDA FOR THE ASB MEETING

Agenda Item 1: Revision of the “U” priority air navigation deficiencies

Taking into account the risk assessment presented by the States, IATA, and IFALPA, the ASB will review the classification of “U” deficiencies. Conclusion 15/47 – “Further actions to implement Conclusion ASB/8/2” was formulated during the GREPECAS/15 Meeting, requesting that the ICAO Regional Offices provide IATA and IFALPA the list of “U” deficiencies contained in the GANDD Database in order to perform a risk assessment on each deficiency.

Agenda Item 2: New methodology for identifying, reporting and classification of air navigation deficiencies

Under this agenda Item, the Meeting will review the proposed new methodology for identifying, reporting and classification of air navigation deficiencies adopted by the Eighth Meeting of the Coordinating Subgroup, according to the Draft Conclusion 08/05.

Agenda Item 3: Other business
