

1 ICAO! | TRANSFORMATIONAL OBJECTIVE

snapshot June 2023

We are up and running!

With the work in the ICAO Secretariat now well underway, our Transformational Objective is taking shape. We now have a total of 42 projects defined for this Business Plan triennium, 20 have commenced implementation and two are already complete! This represents an unprecedented acceleration of transformational work in ICAO, and reflecting the common purpose and momentum for moving ICAO forward to be more fit for the future of aviation.

Latest Highlights

- The first in a series of roadshow events with Secretariat colleagues to introduce and discuss the Transformational Objective received positive feedback and will continue later this year
- Sarah Radloff has joined the Transformation Team as its new Change Management Lead
- The planning and preparations for the Enterprise Resource Planning - Project Portfolio Management (ERP - PPM) project are in full swing and involving many ICAO colleagues
- United Kingdom has provided an additional voluntary contribution to support the People Strategy implementation
- United States is providing an expert secondee to support with the new SARPs - Document Management System (DMS) project which has initiated
- Brazil is providing an expert secondee to lead the Process Engineering needs of the Transformational Objective
- United Arab Emirates held a dedicated Accelerators Simulation workshop for ICAO to support implementation strategies for several Digital Transformation projects
- A brochure of resourcing information is now available as a consolidated Transformational Objective investment prospectus
