

*Reference: AS8/5-18/17*

The Civil Aviation Committee of the Ministry of Investments and Development of the Republic of Kazakhstan (the CAC) would like to take this opportunity to express its gratitude and compliments to the International Civil Aviation Organization (ICAO).

The CAC would like to refer to the Laser illumination and flights safety subject.

Currently, the CAC has not implemented into national legislation the provisions to address the issue of laser attacks against civil aircraft. However, it should be noted that air carriers despite of that fact have already implemented these provisions into the operations procedures.

Moreover, the CAC works on amendments to the national legislation to include these provisions and to introduce it on a mandatory basis.

Thank you for your fruitful cooperation and continuous support!
